Warning: Most people don't often mean what they say. "How to Efficiently Decode People's Inner Feelings and Emotions Through Their Body Movements, and How You Can Use This Knowledge to Succeed in Your Career, Relationships, and Personal Life!" What I am about to tell you might shock you. Many people think that the most popular way of communicating with other people is through the mouth. But what they didn't know is that actual verbal communication accounts to only around 10 (or even less) of the overall means to convey a message. Moreover, you can never determine the truthfulness or sincerity of people by what they say alone. In fact, words transmitted verbally oftentimes do not reflect what people really think or feel. The only way you can determine their true inner feelings and thoughts is by reading their body language. Dear friend, Have you ever wondered what it would be like if you can "see through" the emotions of other people? Let's say you asked a person if he can do an important task. He says "ok." But deep inside, you are questioning yourself, "Is he really willing to do this job?" or "Does he have the confidence to finish this assignment?" You can't question him directly because that would be like belittling him. And even if you ask him those questions, his replies will not be indicative of what he really feels or thinks. The ultimate solution? Read his body movements and gestures. The Body Never Lies! Through body language, you will be able to decode hidden emotions. You may even decipher if a person is telling the truth or not. Moreover, you can apply body language techniques to convey your intentions to other people. This will ultimately lead you to a successful career and fruitful relationships. Body Language Magic: How to Read and Make Body Movements for Maximum Success will teach you how to recognize various emotions or feelings such as nervousness, openness, anger, boredom, doubt, frustration, or excitement simply by observing facial expressions, postures, and gestures. You can use the knowledge of body language to identify if confidence, dominance, and other characteristics are existing in people. On the contrary, you may also perform these gestures when you want to convey certain personality traits to subconsciously influence others. Cool, isn't it? After reading this book, you will never look at the world the same way again. You'll be able to immediately interpret certain actions and

adapt to any situation. Communicating with other people would become a much easier task. You will have a better understanding of people. It's like your eyes will be opened to the world for the very first time.
