AUTOMATE Your ClickBank After-Sales Setup Automatically send out a personalized 'Thank You' message AND add your customers to any follow-up autoresponder! 2. PROTECT Your ClickBank 'Thank You' Pages Unauthorized visitors will be redirected to a WARNING ERROR page if they try to access your download page without paying first. Dear Merchant, What are the three biggest hassles you face when it comes to selling your products using ClickBank? I'm willing to bet that these are high on your list... 1.) You have to manually send out 'thank you' emails to new customers. These emails help reduce chargebacks and refund demands. They also give you an opportunity to show your new customer that you're a credible and professional merchant. The downside is that you have to be there all the time to maintain this level of professionalism... 2.) You have to manually add each new customer to your follow-up autoresponder. Autoresponders are a great way to make additional profits from back-end sales and affiliate commissions. If only the message sequence could be triggered automatically once you make a sale.... 3.) Your download pages are wide open to abuse from hackers and e-thieves. Your download page URL could be broadcast by email or even published online. You could be losing sales because people are getting your product for free. If only there was a way of protecting your download pages... Now, with ClickBankPRO, You can Eliminate all these Hassles - and More! Our easy-to-install Clickbank Thank-You Script will protect your download pages. It will also send both a Thank You message and follow-up messages to your customers. Now you can REALLY put your business on Auto-Pilot! Just Look at What the Clickbank Thank You Script Can Do for You... The system will verify whether your buyer is forwarded from ClickBank after payment. If not, he/she will be denied access. The System will collect both the name and email address of your buyer. An instant Sales Report will be sent to you. (On/Off setting) An instant Thank You message will be sent to your buyer.
