Maximize Your Amazon Affiliate Commissions And Skyrocket Your Google AdSense Profits By Generating Your Own SEO Amazon Stores in English, French & German... With a Click of a Button! I have three very important questions to ask you. Question #1: Would you like to create your own Amazon stores, loaded with category products and keyword-related products of your choice, and fully/heavily armed with your affiliate links... with a click of a button? Thats right! One click! Im sure youd like that. Question #2: Would you like to create your own Amazon stores jam-packed with hundreds and thousands of products, in English, French and German quickly and easily? What could this do to your affiliate commissions? It could do the following: Did You Know? Online Language Populations (Sept. 2004) Together, the online English, German and French markets constitute around 50 of all online populations! Rank #1: English: 35.2, Rank #5: German: 6.9, Rank #6: French: 4.2 The German market is very large, wealthy, and high-tech. It also has a large proportion of bilingual users who primarily search and browse in German but they are able to read English sites when they do find them, without the use of any translation software. The French-speaking world is probably even larger than the German one, with about 150 million people spread around the world in many francophone countries. Question #3: Would you like to easily maximize your Google AdSense profits from your own multilingual, affiliate commission generating Amazon stores? You see... Google provides gateways for world internet users, which includes German and French. Google spider (the website indexing & crawling tool of Google) crawls the web pages of your Amazon store. When it sees that the content is in German, it displays German AdSense. When it sees that the content is in French, it displays French AdSense. If you answered YES! to all three questions, then let me introduce you to an awesome software solution: Introducing... Multilingual Profit Generator! Multilingual Profit Generator is a software solution that helps you generate multiple streams of income by enabling you to: Create your own search engine optimized Amazon store(s) and web pages loaded with products of your choice (categories of your choice) and fully/heavily armed with your affiliate links... with a click of a button. All Amazon links will include your affiliate ID. Create your Store. Create Amazon product stores in three languages. Choose your language from the drop-down menu: Multilingual Profit Generator allows you to create three-language stores on your one domain. Select the category you want: English German French You can search any category by keyword(s) and retrieve keyword-related products of your choice from that category. For example, you might have a website about electronics. So, you would display products from the Electronics category. What if you have a website about digital cameras? You simply enter digital camera in the keyword search box and presto! Your Amazon store is filled just with digital camera products. Monitor and get an overview of how many products are fetched/retrieved per category, per language. Preview products pulled from Amazon and delete the ones you dont want to include.
