Calling ALL Website Owners! - Save 100 On Your Website Graphics For Life! Hand Your Graphic Designer A Permanent Pink Slip While Instantly Getting All The Creative Graphics You Could Ever Want Right At Your Finger Tips, Forever! (Premium Quality Graphics, eCovers, CD & Software Boxes + Much More!) Are You Tired Of Spending A Kings Ransom Every Time You Need Graphics For A New Website Launch? Have you bought custom mini site graphics for your websites in the past for \$150 a set \$250 a set or EVEN \$350 a set? These kind of prices are very common in Internet Marketing. Would you like to finally be free of these high prices once and for all and be able to create your own graphics -with no experience- with a simple to use system? eCover Black Pack is that system... read on for all of the details! RE: eCoverBlackBack- Saving you hundreds of graphic design dollars! The purpose of this site isn't to hype you up into buying the newest "trendy" marketing course or anything like that. In fact, what I'm going to do is show you how to SAVE money on one of the most expensive things that we as marketers need. This is something that's absolutely required equipment when it comes to operating an online business if you want to achieve your maximum potential sales. I'm referring to graphics for your website of course. It's no secret that a website with a professional eCover, software box, DVD cover box and other "shiny" graphics sells more product. This is a tested fact that has proven true in every business that I have ever run. When I have gone back and added graphics to a product that didn't previously have them, the sales instantly went up within the hour. You're probably thinking... "Why Are Graphics So Important To The Success Of My Digital Product Business On The Internet?" That's a good question and one that I'll be happy to answer for you... This section alone will break down some of the most insider sales psychology insight that you have probably ever read so make sure that you read every word!... People want to have a physical image of the digital product that they are purchasing in their head to make it "real". That's right, even though the product is digital and downloaded to their computer they need convincing of the tangible nature of the product. For example, if you are selling an eBook, you will close tons more sales if you plant an image of a "book" in the mind of your potential customer. That simple

image gives them a visual representation which also adds more value to the product making it easier to purchase. You have to remember that everyone's minds revolve around what they can "imagine" so imagining it for them by having a pretty graphic or graphics on your website is essential. By eliminating the need for the potential customer to try and picture what it is that they are buying, you eliminate that road block and will bring in many more sales. If you're like me then you have obviously asked yourself... "How Can I Get High Converting Graphics Without Getting Overcharged, Ripped Off Or Worst Of All... Delivery Of Bad Quality Graphics?" This is a pretty dark area to dive into because it's such a big problem. You'll find that there are a ton of options out there as far as designers that will create graphics for your website but they do it at an astronomical rate. I'm not just talking \$50 for an eCover graphic, I'm talking \$100-\$200. Worst of all, they don't even give you the source files for the graphics so if you ever need to make any changes you have to go back to them and PAY them again! If you can find a designer who is willing to work cheap you are going to be in for one and probably two very unsettling surprises... 1) The graphics that you are going to get are going to be of sub par, cut rate quality and will actually make more people NOT buy rather than buy! That's right, they can actually do more damage than not having any graphics at all! 2) The designer will leave you out in the cold & tell you tough luck leaving you to deal with the bad graphics while also keeping all of your hard earned money. Neither of these are very enjoyable experiences, let me tell ya' because I've been through both of them in the past. But the good news is that you can now... Simply Point & Click Your Way To Conversion Crunching Graphics That Make People Excited & Enthusiastic To Enter Their Credit Card Number & Click "Order"! Now before we go a step further, I need to tell you something very important... This is NOT another one of those Generator software applications that create graphics that never look very good or always look like someone "slapped them together". These are professional action scripts that you use in Adobe Photoshop to create graphics automatically. In fact, these are exactly what your graphic designer has been using to create your graphics that he or she has been charging you out the wazoo for! But it gets much better... These designers usually have 3 or 4 of these action scripts that they use. There is also a person who sells a package of a dozen or so action scripts and charges \$127. And that's just for a dozen or so action scripts! You're going to get a far better deal than that here, I can assure you of that! But first, let me show you a video that will tell you a little more about these incredible action scripts... These Elite Benefits Included With The eCoverBlackPackPremium Action Script Package Come Standard... 35+ Professional Action

Collect high graphic design fees without even being a graphic designer! Do A Yearly "Upgrade" To ALL Of Your Websites! This is a big benefit that most people just don't think of doing (mainly because of the cost). Do a complete overhaul on your websites every year by creating new, updated and fresh graphics to keep your business "up with the times". Can you imagine how much more money your sites would make every year with new graphics? Just Save Money! If all you did was create ONE set of graphics for your website using the eCoverBlackBackAction Scripts package your purchase has already paid for itself! Every other graphic you create OR sell is just additional savings and profit! Increase Orders With Graphic Bonuses! Think about this for just a second... If you gave your best customers a free set of graphics created in just a few minutes with your eCoverBlackPackaction scripts, do you think they would purchase even MORE products from you? No doubt that they would! This is a great way to get people to spend more money with you by doing something that costs you nothing & takes you a few minutes! Create Graphic Packages! Create packages of graphics for certain markets, package them up and sell them at a premium price! There are literally thousands of niches out there that need graphics that you can create and sell them for 100 profit! Become A Highly Regarded "Guru" Inside Of 24 Hours!... I probably don't need to tell you that when it comes to creating wealth online, image is really everything. What I mean is that if your website looks like a 3rd grader put it together, you are going to have a very hard time getting anyone to purchase from it. Potential customers buy from people that they trust and if your website doesn't instill trust and professionalism, they're outta there! That's why it's essential that your website have professional grade, high quality graphics that show them you're a real business that REALLY cares about them. Remember, people link the quality of your website with the quality of your product and in Internet marketing that equals ultimately the quality of the person (you) that is selling them the product. There is no faster way to create a professional, "guru" presence on the Internet than by having a website with high quality graphics. It's like wearing a nice suit and tie (or blouse & earrings for the ladies) the first time you meet a customer. It only makes sense that you have highly professional graphics to instill a feeling of trust and security when a potential customer hits your website. That's what you get with the eCoverBlackPackAction Scripts package! Security in knowing that your customers will arrive at your website and be amazed at the quality of the business that they are looking at potentially doing business with.
