Date: Tuesday, February 23, 2010 From: ResellProducts.tradebit.com Dear Friend, Are you tired of promoting site after site as an affiliate, but in the end, you always feel like youve been cheated? Do you wish that there was a way that you could take your current links and transform them into more professional-looking links, attract more visitors, and explode your commission payouts with less hassle and work on your end to track and keep up with everything? Or have you ever said to yourself, There has to be a better way? Well, what if I told you that now theres a low-cost and reliable tool that: * Allows you to manage all of your affiliate links across all of your domains from one easy to manage control panel! * Allows you to name your links anything you desire - But heres the catch: The files and folders are never created, but the links still work to protect you from hijackers * Allows you to manage all of your links on any domain you want If any of these meets your needs, then I want you to know that I have a treat for you, because in a minute, youre going to learn about a sure-proofed affiliate and link tracking software that can solve all of your problems, make your life as an affiliate 100 easier, and put you on the road to prosperity all at the same time. Why What Youve Been Doing Isnt Working If youre a veteran or even a newbie to affiliate marketing, Im sure you know that it can be challenging, what's more of a challenge is trying to ward off those who try to hijack your commissions by bypassing your link and replacing it with their own. Some companies have measures in place to protect against this,

but many of them dont, so its best for you as an affiliate to take matters into your own hands and protect yourself. Some have tried cloaking. The problem, however, with cloaking is that in most cases, theres no tracking feature for you to keep up with your sales. And in order to do so, youll have to add another piece of software to accomplish this, which really is a pain to deal with. In addition, most affiliates, maybe even you, traditionally sign up to multiple affiliate programs and keeping up with all of your affiliate links, user names, login information and passwords to track and check your clicks and sales can be overwhelming and require that you use several different pieces of software to keep up with everything. But after today, you can kiss those days goodbye, because with this new, tested and proven-to-work affiliate and link tracking software, youll be able to eliminate those long, ugly links and instead, have a more professional-looking solution that entices people to click on your link and buy. the Solution.... LINK-ISH! And check this out - Only one installation and you can cloak links across any domain: thisdomain.com/thislink/ or anotherdomain.com/thatlink/ or domain3.com/goes/here.html Sounds great doesnt it? Well, dont be fooled by similar or other products on the market that claim to provide you with similar results, because theres simply no other product available today that can match or out perform the results youll receive once you say yes to... Just Some Of The Reasons Why 'LINK-ISH' Stands Head And Shoulders Above The Competition: Other Products LINK-ISH * Restrict all your links to one folder like "/recommends" and clutter up your site with lots of new files and directories. * Restrict you to using just one domain meaning you have to go through several installations and several logins to manage your business. * Cant guarantee your results. * Are only designed to do half the job they should do to ensure that youre not cheated out of your commissions. * Leave you still searching for the results you thought you would receive once you purchased their product. * Allows you to name your links anything you want, and publish them in any folder. Even if the folder doesn't exist, the links still work. * Keeps all your affiliate program and login details organized in one central location making running and tracking your business a breeze. * Brands each of your links with any domain name you want. * Allows you to publish links on all of your domains, yet control and manage everything from just one single installation! * Increases your click-through rates up to 814 with professional looking URL's. * Protects every link from affiliate commission thieves. * Is affordable for anyone and provides you with the results youre seeking * Is like no other product on the market today * Has been tested and proven to work by real-life affiliate marketers and provides you with an all-in-one system that keeps you from having to use several pieces of software
