

Perfect Bid 2010

[DOWNLOAD HERE](#)

Perfect Bid Clone is the ultimate script for starting your highly profitable online bidding website. This script is a powerful, scalable & fully-featured application that lets you create the ultimate profitable online penny auction website, just like TeleBid, Swoopo & Madbid. Manage your entire online auction operation: create new auctions within seconds, set up an auto bidder so your products sell for the price you want, add new pages using the built-in CMS (Content Management System), and much more! A completely automated system that was built with usability in mind. Features include the ability to duplicate multiple auctions, block bidders, peak-only bidding, engine to award free bids, and much more. You decide when your auctions finish. Price too low? Use the auto-extend feature. Not enough bidders? Use the auto-bidding feature. Making a profit has never been so easy. Powerful, feature-rich backend Send newsletters, emails, and more using the powerful CMS that comes as standard. Create & edit pages, news updates & blog posts seamlessly Monitor, engage and interact with your visitors in real-time using the powerful CMS (Content Management System). Update your website within seconds - no coding experience needed!

Unlimited auctions, bids and more This awesome script allows you to customize any aspect of your auction brand. Take on Swoopo, Madbid, BidBoogie and more in style abut with a budget that doesnt break the bank! With a huge variety of features and options, at an extremely affordable price, perfectbid Clone is written in Object Oriented Programming in PHP and mySQL which is usually referred as LAMP (Linux, Apache, mySQL and PHP). Main features include Live auction, Pay Per Bid, Lowest Unique Bid, SMS, Bidding, Bid Butler, Automatic bidding, Penny Auction Bids and powerful CMS based admin panel. We offer various templates for different types of businesses out there. So you can find one template to start your own Swoopostyle website or Penny Auction Site. Features: * Easy Installation (Less than 15 minutes) *User registration and account verification. *Buying bid packages. *Paying per bid and the price increasing by a set amount. *The time increasing by 10 seconds (you can change this time in the CMS) every time a bid is placed. *General pages such as terms and conditions and a help section which you can edit. Add your own pages at free will. *The ability for members to login, update their account, purchase more bids and pay for their won auctions. *Paypal as the payment gateway by default. *Fixed

price auctions and variable priced auctions are also available. *Ability to give users free bids. *Ability for users to receive free bids for registering, for winning their first auction and for buying bid packages for the first time. *Add, edit and delete articles for the latest news page. *Content Management System (CMS) you will be able to Add, edit, delete and clone auctions. *Use macros to start, stop and publish auctions *Refund bids. *View the winning bidder and update the status of the auction e.g. pending, running, ended and completed. *View, edit, add, delete and suspend users. *View users bidding history, purchased bid packages, add free bids to the user and refund bids for the user. *Manage the entire website content such as the terms & conditions and help page content. *View referrals from users. *Set the bidding packages. *Update the latest news articles and add new articles. *Manage the website categories, add, edit and delete new categories, which can be unlimited levels deep. *Edit general website settings including turning on and off various features at a click of a button. *Payment system PayPal (included) *Limits on the number of auctions a user can win in a month. *Coupon Module (Users can redeem coupons to get admin defined bids) *Affiliate Module (Users can get rewards for referring friends) *Address Book importer (To invite more and more people) *Rewards points system (when packages are purchased) *Credit back on lost bids (Users get credit for bids on lost items to pay for won items) *Auto Bidders (Users can schedule them in advance) *Mark-up Percentage (Once set will automatically calculate reserve price) *Peak Only Auctions (Active for a specific time period) *Nail Biter (Auctions without Auto Bids) *Template Based (over 20 Templates to use) *Multiple Languages *Multiple Currencies *Product Inventory (Add a product once and then create as many auctions as you want) Website look may differ depending on your Customization and Configuration This source code script comes unencrypted so you can make changes as you see fit. Important notice: These product are perfectly working condition, unencrypted, viral checked, No back door entries, complete genuine product. These generally sell for hundreds of dollar on script website, Ebay and other websites. we are offering you at a very low price. Please check the features and server requirements before you order. Because this is a digital product, there are no refunds once the product is delivered. please keep this in mind There are no refunds for this product and Complete set of installation information is provided with this product. If there is problem with the script then it is from the server side as shared hosts have a lot of restrictions; prefer dedicated host service. We do not provide any Installation and Product Support.
