Do you have a members private site, or thinking about setting one up? If the answer's Yes, let me ask you a second question ... Are you shocked at some of the prices "Member Site Management" software and service companies are charging? It's daylight robbery. I've seen them running up to \$15,000 a beyond. Absolutely crazy. Especially when I tell you that you can set up a private membership site, for FREE. That's right - zero dollars and zero cents. Now, of course in that \$0.00, I'm not counting your costs for web hosting, buying domain names, or any of the other regular costs that keep your online business ticking. I'm here to show you how to quickly, easily, and for FREE add private member areas to your sites that are easy to manage, easy to run, AND - are very secure. Now, I'll be right up front with you - this information comes in a hefty 12 chapter eBook. And this eBook is not free (it is incredibly affordable though as you'll see). However, all the information inside it can be successfully used at absolutely no extra cost to you. This information comes from the dozens of hours of my research and the hundreds (if not thousands) of hours I've spent running and managing my own membership site. This is hard hitting, immediately usable, little seen information. And - you even get secret code (I've never shared this before) that will make your membership site a LOT more secure. I paid a programmer a handsome sum to work with me to solve this issue. You get it at absolutely no extra cost as part of this product.
