The Current Version is v3.0 loaded with more than 2700+ Directories and loads more features! Submit your website faster to more link directories... Forget Asking For A Link Exchange... Directory Submission is the Key to Strengthening Your Google PR & Increasing Your SE Rank! === FREE BONUS - Plus you get to choose a FREE Bonus Gift from any product I have in my Tradebit Store! {One of equal or lesser value.} Let's take a look at what you can expect from the Link Directory Submitter: = You'll increase your site popularity in record time. = You'll receive more traffic by gaining a higher position in search engines, such as Google, Yahoo! and MSN. = You'll stop wasting time manually submitting to link directories. = You won't have to search for themed websites. We now have more then 2700+ quality directories already included. = You will greatly reduce your reciprocal links from your website because more then half the directories included in the software require NO back links to them. = You'll cut down the number of directory rejections. = You don't have to upload anything to your website. Everything is done from your desktop! = You can submit ALL of your sites by using multiple profiles. = The software is so easy, my 10-year-old niece whizzed through it in a matter of minutes! = Each link directory in the submitter shows the directory's current Google PR. = You get FREE lifetime updates to any new versions we release. = You get fresh link directories to submit to by simply clicking the Update Directory Button from within the software, Each month we add between 50-100+ new directories into the submitter. = The Link Title, Site Description and Keywords are rotated with each submission to a directory. This is to make each submission look as unique as possible from each other, and also to help get your website listed in search engines under many different keywords and link titles. = Import and Export website profiles is now also included = Users can now assign a custom color to each directory in the submitter, this is useful if the user wishes to use a color coding system to keep track of submissions or anything else. = A submission history report feature has been added to allow the user to export and email a submission history report to their clients or for their personal records. = New Feature v2.4: You can now add your own link directories into the submitter or bulk import directories from .txt files or excel exported .csv file = New Feature v2.4: Multi Tabbed Browsing - Run up to 10 browsers within the submitter which will greatly

increase the submission process, because as you submit your website to one directory another directory will load in the other browser tabs and be ready for you to submit your website. = New Feature v2.4: Category Auto-Completion. Enter one or more categories/subcategories for each site profile and Directory Submitter will auto-select the category for you on the submit page in your order of preference. = New Feature v2.4: Alpha sorting of directories from A-z and Z-a also Pr sorting of the directory list. = New Feature v2.4: Search option to find any directory in the submitter quickly. = New Feature v2.4: Add comments to any directory in the submitter. = New Feature v2.4: You can now add your own link directories into the submitter. = New Feature v2.4: A reciprocal manager script fully integrated with Directory Submitter. It's now easier than ever to submit to reciprocal directories.
