"Finally There's an EASY Way To Publish Stunning PDF Files, Without Wasting a Lot of Time and Money" Step 1. Write your ebook with eWriter Pro (or in your favorite text editor). Step 2. Insert Your Graphics, Links Etc. Step 3. Click the PDF icon. Hey Presto! Your PDF Ebook is Ready! Dear Publisher, As you know, PDF is fast becoming the format of choice for ebook authors and developers around the world. That's not surprising. Surveys continue to show that PDF is preferred by an ever-growing majority of ebook readers. And it's easy to see why PDF Ebooks are so popular... They can be read on just about every computer in the world. They are easy on the eye, because they recreate the look of a printed page. PDF ebooks always display correctly on the reader's computer because fonts, graphics, special characters, and so on are all embedded into the original PDF file. PDFs are easy to print out and always give a reliable reproduction of the original document. They can contain links within the book as well as links to websites. PDFs are very secure. In short, when it comes to electronic publishing, PDF is where it's at. The only downside to PDFs is that they can be both complicated and expensive to create. Until recently the only software available was Adobe Acrobat PDF Writer. At a retail price of around \$250, it isn't accessible to a lot of people. On top of that, it's far too complicated to use. The same is true of most of the other PDF programs on the market. To put it briefly, getting your written work into PDF format remains a major headache for most average users. Not any more! "Now You Can Create Stunning PDF Files in an Instant - Without the Expensive Software!" Five minutes from now you can start transforming any of your documents - text, images, web pages, or whatever else you want - into universally readable PDF files Introducing eWriter Pro... This software is so EASY to use, you probably won't even bother to read the help files! If you can type an email, you can start publishing your own Media-Rich PDF Ebooks in just minutes. But don't let its simplicity fool you! The PDFs you make will be every bit as professional and secure as the ones you'd make using other expensive programs. Just Look at Some of the Features You'll Enjoy with eWriter Pro... You can create your content directly inside the software or just paste it in from your favorite text editor (like MS Word). You can include active hyperlinks to websites or email. You

can password-protect your PDF document. You can disable the copy/paste function to prevent theft of your work. You can disable the print function. You can easily insert pictures etc. into your PDF. You can include page breaks to make your PDF easy to lay out and navigate. You can automatically add page numbers and footers to your ebooks. You can manage, store and categorize all your ebooks, articles and works-in-progress from inside the software. You can create an unlimited number of full-featured PDF files. No restrictions, no royalties, no 3rd-party ads. And more... In short, You'll Have Full Control Over Every Aspect of Your PDF Ebooks. And you'll be amazed at how EASY it is to work with eWriter Pro. Everything about this software is geared towards convenience. Here's a look at one of the panels inside eWriterPro: Note the easy layout and the modern look. It's easy as pie to insert images, footers, page breaks, page numbers, text frames -- EVEN Hyperlinks! Once you're done writing your ebook, just hit the PDF icon to instantly turn it into a downloadable PDF file! You'll also have the functionality to secure your ebooks. Here's What People Are Saying about eWriter Pro... "eWriterPro is great for writing articles and ebooks, but what I like most is how it keeps everything organized in one place. I can sort by niche or category which is handy when you've got a bunch of different projects going. The backup feature is pretty good too." Jeff Hiebert

----- At last! A simple tool that makes creating ebooks easy! Instead of fighting behemoth software with arcane commands doing who knows what (that suddenly screw up what you were doing when you accidentally hit the wrong key) -- you can create an ebook practically in the time it takes you to launch the help file of other programs. "Add the utility of the ebook & article buttons and easy-to-find and use backup problems with a reminder - this has got to be darn close to ideal for rapid turn around of articles and ebooks." Judy Kettenhofen

----- "Adding text boxes and pictures couldn't be easier. I like being able to pick up just about any format and convert it to a clean looking PDF. I have used a lot of PDF conversion programs, even some of the free programs but somehow you always loose the formatting. With eWriterPro its simple and quick. I also love that the software keeps all of your source non PDF files in an archive to reopen and edit quickly." Jonathan McGuire Invest now and make monay!
