Digital Scrapbooking Made Easy - With Master Resale Rights! EXPLAINING DIGITAL SCRAPBOOKING

Taking photographs is a wonderful way to preserve your precious memories. With a picture, you can freeze those special moments in time and capture them forever. Of course, scrapbooking has been around for some time, but has recently felt resurgence in its popularity. The art, yes I said art, of scrapbooking not only gives you a creative way to preserve those incredible photos you took, but offers an exciting display for you to share with friends and family. Beyond this, it is a creative way to get your family members 'on the same page' so to speak, helping you fondly remember good times while creating some new memories by working together on the project itself. Scrapbooking is becoming such a mainstream activity that there have been new books written on the subject detailing new, inexpensive, and inventive ways to create something spectacular that does a splendid job of showcasing your last big family activity. And, it's a lot more entertaining than the 'old vacation slide show', or flipping through the hum-drum family photo album! In fact, you can find lots of free information on the subject of scrapbooking readily available from hundreds of resources online! From newsletters to websites, there are plenty out there dedicated to the growing scrapbooking hobby. However, most of these information laden resources, whether online or off, cater specifically to the traditional method of scrapbooking. But, what exactly IS the 'traditional method' of scrapbooking you might ask? Well, traditionally, scrapbooking has been done with physical photographs, different types and colors of paper, scissors, embellishments, yarn, ribbon, buttons, tags, and other interesting things arranged in a creative way that in essence 'frames' the photos of one's choosing. Scrapbooks can have a specific theme, or really no theme at all. It all depends on the person creating the scrapbook masterpiece. When scrapbooking, you are only tethered by your own imagination. And of course the supplies you have on hand. A scrapbook can be as simple as some pictures pasted on construction paper with bits of writing paper tacked on for little captions describing the pictures. Or they can be as complex and flamboyant as you would like. That's why the scrapbooking hobby is so appealing to such a broad audience. From seniors to toddlers, and everyone in between! Because it's really fun! And for some, quite addictive. But sometimes because of distance factors, you can't always share your

photos with those you love most. Not unless you make 2 copies of the same scrapbook so you can keep one for yourself and mail the other off to Auntie Mae in Hawaii. Then you can gush over them together via telephone. Creative moments scissors But with the progression of the digital era, comes a new, and easy way to scrapbook that allows you to share your creations with everyone in the world, anywhere in the world. Of course you know I'm speaking about digital scrapbooking done online. All you need are the right tools to help you get the effects you want. Whether it's simply a private place to post your family photos, or an extravagant display that will make your friends and family go "ooh" and "aah".
