

# Secret Message X Script

[DOWNLOAD HERE](#)

Secret Message X is a system developed to let your visitors send "secret messages" to their crushes. Visitors can create their own accounts, which allow them to check the incoming and outgoing secret messages. Also, an admin script is provided, which allows the administrator edit configurations, delete users, add/remove random ADs, send emails to users and show user statistics. 1.2 How it works

----- - Dave likes Jane, but does not know whether Jane likes him too -  
So he sends a secret message to Jane telling her he likes her - Jane receives a secret message but do not know who sent it - She goes to secretMessagexand sends a secret message to her crush too, and it turns out to be Dave - The system sends an email to both of them and tell them they've
