It will submit the order to Kunaki via it's XML service to burn, print and ship your order to your buyer - automatically!! Still standing in line at the post office? Hey! This is 2009! You have better things to do This script allows you to completely automate the way you sell and ship your CD's and DVD's! Other features: \* The script is written in PHP easy to set and use - a video (in \*.WMV format) on how to setup the script is included! \* One installation of this script can sell multiple products at once - so you can sell CD or DVD sets\* or single copies... (\*sets can be multiple CD's or DVD's or a combination of CD's and DVD's - very flexible!) You get the script (of course!) but you also get a video showing you how to setup the script AND how to sell CD/DVD sets from a single page and installation! "How is this different than the XML service Kunaki already offers to publishers?" This is exactly why this script was created - to communicate directly with Kunaki's XML service. The coding is complex to even the best coders so we created the script to make it easy for you to sell your CD's and DVD's automatically! "Can't I just order CD's and DVD's from Kunaki in bulk and ship them myself to my customers?" Of course you can, but how much is your time worth? Kunaki CD/DVD Automator does all the hard work, lifting and post office trudging for you! You can sell your CD's and DVD's completely hands-off and automatically! You also do not have to create PayPal buttons, redirect URL's, Order Tracking ID's or order confirmation emails or web pages - the script does it all for you! "How hard is it to setup the script?" That's the best part! It's very, very easy :-)

After entering your account info, your PID number for your product(s) from your Kunaki account and then set your prices, just upload the script to your server and you're ready to start taking orders! To make 100% sure you'll make good use of your investment we do include an easy to follow step-by-step setup video "Who is this script for?" It's for anyone who wants to sell their content, scripts, audio, video and more on a CD or DVD or in a set of CD's and DVD's. Internet marketers, authors, developers, speakers, non-profits, direct marketers, independent musicians, and more will instantly see the value of being able to sell their content on physical media, getting paid instantly and never having to go to the post office again! "How Does Kunaki get paid? Does the script pay Kunaki when my customer pays by PayPal?" Check Kunaki's site often to be sure that they have not changed their policy but at the time this was written Kunaki allows all publishers to setup an account for free and you only pay for what you use. Kunaki does not get paid using this script - it only submits the orders via XML to Kunaki for fulfillment. Kunaki will send you an invoice to be paid once a month based on your

previous month's usage. If you do not pay your invoice your account will be suspended.
