Finally - An Affordable Solution To Your Membership Site Requirements! Is Membership Site Buddy Right For You? It Is If... \* You are looking to set-up a membership site from start to finish, and have absolutely no experience. \* You want highly effective yet simple to install membership site software that will save you hundreds (if not thousands) of dollars on overhyped membership site systems and scripts. \* You want details on what topics are best for setting up your membership sites. \* If you wish to discover the sure-fire success tactics, techniques and tricks that the most successful member site owners are using to market and generate thousands of paid subscribers to their member sites. \* You wish to generate income by reselling Membership Site Buddy and keep 100 of the proceeds (Master Resell Rights Included) Dear Friend, In the next few minutes you could be in the enviable position of having everything you will ever need in order to create your very own membership sites from scratch. By everything I mean just that - because this package provides software to help you build and manage feature-rich membership sites...as well as provide you with priceless information, tips, tricks and more to give you the power to stuff your membership sites with paying clients - depositing \$10, \$29 or even \$29 into your bank account, every month like clockwork. If that's not enough, if you're new to earning online and you have no idea what breed of membership site to create and in what niche then you'll find out the most profitable membership site niches to set-up in. You could leap-frog above thousands of established internet marketers & businesspeople with this powerful kit. Why You Should Consider Setting Up Your Own Membership Sites! The paid content business model has exploded in recent times, and not just for business type niches. The potential returns from owning membership sites in all types of niches from online dating to health and

fitness etc are now stronger than ever. However, the best part of owning a membership site is the type of income that the site owner gets - recurring income. Ask any wealth creation expert and they'll tell you that one of the best ways of getting RICH is by offering a service where the payments keep coming in, month after month. That's exactly what a membership site does for you - once set-up and promoted, your members will pay you a monthly fee to continue to access the site. It's a little like earning a salary (but without the hassle of having a job). Here's how "Membership Site Buddy" will help you set-up, run and grow your own cash generating member site that has hundreds, even thousands of paying members...

Membership Site Buddy Offers You A Simple To Use Yet Comprehensive Membership Site Software The Simple Member System software that you receive is ideal for people who want a powerful membership site that performs a wide variety of functions, while being easy to set-up manage and run. Time is money... and when you purchase the latest and greatest script, you expect to have it up and running within a few hours. There simply is no time for debugging a script or figuring out why X, Y and Z files don't seem to work. We have looked at most of the "high dollar" membership scripts, and while the features vary they have one thing in common... they take forever to learn how to setup. Some scripts almost require you to outsource the site set up because of all the features which are confusing and hard to understand. You No Longer Have To Worry About All That Techie Mumbo Jumbo ... ..because now your life just got a little easier. The Simple Member script has been designed so it is easy to set up and easy to use because we know it shouldn't take weeks to set up a site. There is no reason to spend all those wasted hours learning how to install and setup a simple membership site when you could have your own site up and running within a matter a few minutes. The bells and whistles that most 'big boys' use will be offered to you as well, but we are giving you the bare bones so you can get your site up and running fast. Here are the major features of this powerful membership site software: Member Site Software Functions...

Admin Functions: Simple Member has on screen documentation. Every page of the admin area has explanations of what the options do and how to set them up. Customize site name, meta description, and meta keywords. Customize Disclaimer, Terms of Use, and Privacy Policy from the admin area. Emails sent to admin and members on signup or payment are fully editable from the admin area. Mass mail system. Send broadcast emails out to all members who have agreed to receive emails from you. Works with or without cron jobs. If cron jobs are not available to you, there is a function available to send the emails out with just one click. Single user mail system. Admin can choose to send an email to

any one member. Simple interface for email built right into the manage member page. Manage member details page allows admin to pull up information on any member. Members can be sorted by first name, last name, user name, email, or member id. Another problem with most low cost scripts is that they have very little power in the member functions. Most of them have very basic signup only and just log members into a blank member area where you have to design what members see. Again you end up having to learn how to code the pages yourself or outsource it. Simple Member has powerful member functions that control your member area and every detail of what members can see and do. Member Functions:

Automated payment and signup. Once a new member pays he is returned to the signup page. Member receives an email on free or paid signup as well as on OTO purchase. Automatically logs member into members area after successful signup. No more making your members wait for an email to get their products. Simple Member has a template driven member area. You can change the header and footer html files to customize the look and feel of your site. Download pages are database driven for added security and can only be accessed from within the members area. Reset password feature. If a member loses his password he can have his password reset to a random password and it will be mailed to his email on file. Feature requires both username and email address to be correct in order to protect against members resetting others passwords. All passwords are encrypted for added security. Members have a profile area where they can change their password, email address, and choose to opt in or opt out of your script run mailing list. Members get clean affiliate links. Using a redirect system affiliate URL's are coded `yoursite.com/go/affiliateusername`. This allows affiliates to advertise links that are not ugly referral urls like most systems have. All html code is validated as proper code. Every page that outputs html has been tested using the W3C validator. All Those Features Are Cool, but I Didn't Stop There!... In addition I have added in many more features into the admin that can make your membership site truly awesome. Simple Member has lots of great options on how you set up your site and can be controlled entirely from the admin area... Options for free or paid membership, or both. Optional One Time Offers (OTOs) which may be shown on the first login into members area. If a member buys the OTO, the member is returned directly back to his member area and provided a new link allowing access to the purchase. The OTO is a true one time offer which is database driven and will only be shown once. Once viewed, the member is flagged and will not be shown the page again. Free membership, paid membership and OTOs all have their own customizable sales page and download page. Built in affiliate system helps to make your

product viral. All members become affiliates as soon as they add their PayPal email into their profile. The admin area allows you to set the percentage of each sale that affiliates will receive. Optional JV capability. You can choose if you want to allow JV signups. If the JV option is turned off, then the JV signup form is automatically disabled by the form so there is no need to hide your signup page. Option to use live PayPal or PayPal sandbox for testing. All payments are logged in the database as well as a text file. Double logging all payments means added protection against lost payments or payment disputes. Option to limit membership. If you set a membership limit you can customize a page to be shown when membership limit is reached. The script keeps count of your members and will automatically switch pages once the membership limit is reached. Option to raise price after each sale. You set an amount you want the price to go up and it will automatically be updated after every sale. Admin receives an email on each free or paid signup as well as each OTO purchase. Protected download directory. Using a hidden redirect you can create links to your product which hide your actual download directory. You can name the directory anything you wish and changing the direct link involves simply updating one field in the admin settings. Set up unlimited marketing emails for your affiliates and JV Partners. Using a simple to follow interface, you can add and edit marketing emails in seconds. But it does not end there - you also receive a guide that teaches you how to succeed with membership sites. If you're new to membership sites, you probably have a lot of questions - our book was written to help answer these questions for you...a perfect introduction to membership sites for the newbie: *An Essential Read For Newbies - Before You Learn The Secrets, Learn The Basics About Membership Sites* Here's what you'll learn inside: \* Why membership sites can be such a flawless business model in the internet era. \* An introduction to different membership site models. \* The importance of exclusivity in making your membership site succeed. \* Why getting free members can be crucial to the long term success of your membership site. \* The concept of community driven membership sites. \* The key trait that all successful membership sites have in common. \* How to go about deciding what your own membership site will be about. \* How you may be able to turn your passion or hobby into a membership site. \* 10 highly profitable membership site ideas. \* How to set-up your membership site on a shoestring budget. \* How to build you membership site.
