Dear Friend, From The Desk Of Dave Doonon If you are anything like me you have probably tried just about everything to build the kind of life that you and your family deserve. You are likely into positive affirmations, keeping a positive mind and thinking big. I am too. Do you believe in the law of attraction? The law of attraction basically says that we become what we think about most of the time. The obvious course of action is to think about wealth and success most of the time. Everything I tried helped but the help was only temporary. I understood how positive thinking and the law of attraction worked intellectually but I found it next to impossible to consistently put the principles in place. Are you able to think about the things you should be thinking about most of the time? In practice, that seemed next to impossible. I got so bad that I seriously considered accepting that I would never achieve my dreams! I mean it was incredibly frustrating to really believe in the law of attraction but to not be able to utilize it. And then it happened... Upon Discovering Brain Entrainment Technology, My Life Changed For The Better Almost Overnight ...And So Can Yours! Just when I was about to give up on the notion of accumulating a lot of wealth and being a huge success, I came across the concept of Brain Entrainment. What exactly is Brain Entrainment? Discovered over 70 years ago, Brainwave Entrainment allows the brain to modify its own internal electrical rhythms called brainwaves that can be accurately measured, analyzed and observed using different technological equipment. When external rhythms from light or sound sources meet the frequency of the brains rhythms, brainwaves synchronize with the outer stimulus, triggering a phenomenon called Frequency Following Response or FFR. Based on this principle, brainwaves will slowly shift along with the outer stimulus coming from auditory or light sources... In brief, this technology controls mental states and bodily functions through measured application of specific sound patterns, tones and frequencies. In essence Users are able to - Achieve their full potential And . . . Instantly change their mental state. For instance, if you want sleep, concentration, creativity or

any other mental state, Brainwave Entrainment will quickly take you into a deep meditative state as you listen to simple audio program. Instant Satisfaction! This absolutely fascinated me! People were making huge changes in their lives just by listening to specially designed audio tracks. I had heard Tony Robbins talk about this kind of thing before but I put it off as hocus pocus. It turns out that this stuff is scientifically proven! Yet I could not deny the evidence that I was seeing. People were using this technology successfully to help them lose weight, improve their concentration at work, improve their golf scores and all kinds of other things. I immediately searched around to find some of these audio tracks that were specifically designed to help one accumulate wealth with the law of attraction in mind. None of these were effective at bringing the law of attraction to a deep subconscious level where it needs to be! Law Of Attraction Junkie Exploits Hot Technology To Build Wealth! I knew from all of my research that this Brain Entrainment technology could help me do what the law of attraction states - become what I think about most of the time. I knew this technology would change my mind so that it thought positively much more than previously. So I did what any self professed fanatic would do - I spent tons of hours and tons of money developing the product myself! I even went 2 steps further and added a meditation track and a hypnotic affirmations track....all designed with wealth building in mind.
