"Easy To Install Script Makes You Money Over And Over Again With Unlimited Potential!" How Many Words Are Their In The World? The Opportunity For Daily Payment Notifications Is Endless! From: Frank Salinas & FBM Thursday, August 12, 2010 Dear Friend, I have a few questions for you today. If you answer yes to any of them, then you'll want to pick up this very affordable fun piece of technology. :) Are you looking to add another income stream to your online business? Have you been online for months spending more money than you're making? Would you like to build a list fast and easy? If you answered yes to any of the questions above, keep on reading... Word Profit Generator Is Your Solution Word Profit Generator lets you create unlimited word cloud sites that you can host on your own server. "What is a word cloud site?", you might be asking. You have probably seen a word cloud before since they've been around for a couple of years. They are fun sites that let visitors add a word or phrase in a certain niche. Well, those websites get picked up very fast by the search engines and they usually gets lots of traffic too! Advertisers pay for specific word links that point to their websites on these word clouds and I have to tell you, people love to buy words on these word clouds. Even though these types of sites have been around for years, don't get fooled into thinking you can't still make money with them. Now why would I offer you a script to a money-making system that already exists if you can get it somewhere else? Why? Because .. Word Profit Generator Packs A Profit-Pulling Punch Not Offered On Any Other Word Cloud Script! How would you like to be able to quickly and easily setup word cloud site after word cloud site in different niches bringing you instant daily payments day in and day out? Word Profit Generator can do this for you and in more ways than one! Here is what sets WPG apart and here's why you'll want to pick it up for yourself even if you already have a word cloud site: You can accept PayPal And AlertPay for payments! WPG comes with a built-in autoresponder! You can create a series of unlimited autoresponder emails for every site you create! If an advertiser does not want your emails anymore, every email has a link where they can delete their account which automatically deletes their word link - creating more incentive for them to stay on your list! You can create word cloud sites in different niches and send your advertisers laser-targeted profit-pulling emails bringing you income on the backend! All emails sent are Can-SPAM

compliant by including your site name and physical address! You can personalize your emails with the advertiser's first name! You can choose if words fall off or not. What this means is, lets say you sell 100 word links on your site. Once someone adds word link 101 to your site, the first advertiser's word link "falls off" and they receive an email letting them know to submit another word link. This keeps people coming back to your site again and again giving all advertisers more clicks! You can set how many word links have to get clicked on before a visitor can submit their own! The only way a visitor can submit a word link is by viewing other members' websites! This means you are helping advertisers get way more traffic! All advertisers have to verify their word link through a verification email they receive. The verification link in the email will take them to a confirmation page. That confirmation page will show a random member's website in a bottom frame and in the top frame it will tell them their word link has been verified. Again, giving members even more traffic! You can add HTML to the top frame of the confirmation page too! Giving you another chance to pull in profits with maybe rotating affiliate links or banners or even a special bonus.. the sky is the limit! Words are instantly approved and activated with the above feature! WPG also comes with a stats page where visitors can see which words are getting the most clicks! Meta Tag fields included in the settings for your site's description and keywords to boost your search engine ranking! Standard Terms of Advertising already included! 40 background images already included! Sell words in 5 different currencies! And much more! You can create unlimited word cloud sites in any niche over and over again with just one purchase! Word Profit Generator lets you have fun, receive daily payments and build your list! The only requirements are that you need to have your own hosting account with php 4 or higher, mysql 4.0/4.1 or higher and the ability to setup cron jobs! Most hosting packages come with everything you need to get started! Don't know how to install scripts? No problem! We can help you out, just contact us after you make your purchase!
