VirtualBox - gOS Rocket-G (Gnome) VDI [veeDee-Eyes.com]

veedee-eyes.com/veedeeyes/gOS.Rocket.G gOS is the third choice of computer in the consumer mindset. By building the most beautiful and easy to use linux-based operating system with the most popular activities for the least technical people to buy, love, and share. Experience Google Desktop applications at the touch of a button. gOS is not the "Google Desktop", but with all the bells and whistles that makes one wonder. Sun xVM VirtualBox is a family of powerful x86 virtualization products for enterprise as well as home use. Not only is VirtualBox an extremely feature rich, high performance product for enterprise customers. Please visit our web site for OS login information if needed. veeDee-Eyes (VDI's) veeDee-Eyes.com/ VDI images of pre-installed, premade "Open Source" Operating System distros. Instantly run another operation system on your desktop in a window. Installation:
-Download and install VirtualBox virtualbox.org/ -Create a new Virtual Machine select the VDI file as the virtual disk -Start the virtual machine
