"How To Write High Response Sales Letters In Just 25 Minutes With These 6 Quick And Easy Steps That Work Every Single Time... Even If You've Never Written One Before!" I was talking to a good friend of mine last week. He just got into online marketing maybe two weeks ago, in contrast to my seventh anniversary edging ever closer. He pays close attention to what others are doing, so I'm always happy to answer his questions. Anyway, during that conversation he asked me probably the most important question he could have asked that immediately told me that he's going places, and fast. This is what he said to me... "Do you know if there's something I should be working on, a skill I should start developing right now that will help my business grow quickly? What's the most important job an online marketer can learn to do well?" The answer was simple "Learn to write sales copy" I told him. Why? Because if you can't write sales copy, it doesn't just affect your sales, it affects your lead generation, the response to your ads, your resource building, your profits, the quality of your products, everything." There was a short silence... And then the reply came "That's a problem, you know that I dropped out of school at 17 and can't afford to pay a copywriter \$3000+ for a sales letter every time I want to sell a product or send out an ad. I really don't have a chance do I?" He said in a disappointed manner. More chance than you think I said... Fast forward 30 minutes and from not knowing where to start, from having never written a sales letter before, he left that conversation with a sales letter that continues to sell products at one sale to every 75 visits for his premium product (that's even before any tracking and testing on his part, there's no doubt in my mind it'll improve). It'll take just 30 minutes of your time, and you'll come out the other end of this knowing how to write high response sales letters again and again. All you have to do is follow a simple formula. Here's *exactly* what I showed him... Introducing to you the "High Response Sales Letters" Copywriting Course In just minutes from now you can own the "High Response Sales Letters" Copywriting Package. Consisting of 60 power-packed pages of supercharged information telling you EXACTLY how to create sales letters that really sell. These Proven Power Packed Sales Letter Techniques are waiting for you. Learn the exact tested and proven methods Internet Guru's use to rake in fortunes online with their sales letters. Here are just some of the Powerful Tips revealed in this incredible

copywriting package... * Over a decade of tracking, testing and experience at your disposal. Since I started in online marketing, I've written, tested, critiqued and torn to pieces many hundreds if not thousands of sales letters out there. My experience is now yours. * A proven track record that has seen visitor to sales ratios rise by over twenty five times since the beginning of my online marketing career. You could test and track all of this yourself if you like, but of course, that takes time. But why expend all that effort when I've done most of the work for you? * Step by step sales letter creation. I'm not just going to give you a bunch of examples here and say 'copy this and your stuff will sell'. Instead, I'm going to define a set of rules for you that will take you right from the very first word, to the last letter. No need to flail blindly in the dark anymore. I take you through each step to, by the end of the manual, completion of a power-packed, proven to sell sales letter. * It works for everything. You know, I started out developing these methods before I even started in online marketing, selling computers offline. You don't have to be selling a how to make money product to take advantage of this. In fact, if you're not selling such a product, you'll soon be giggling at the competition who have poor sales processes, or even no sales letter at all, which is extremely apparent outside of the make money niche. This is your chance to get ahead before they realize what's going on. * Snap your readers out of their daily grind trance with attention grabbing headlines then slowly ease them into your sales letter with a hypnotic introduction, flowing right into the sale of your product. We cover proven sales letter techniques from start to finish. No special skills required. If you can read and write english, you can do this. * Writers block solved in a split second. Never again be stuck for something to write, or have trouble getting started on what is the most important piece of your business. One simple method that allows words to flow right onto the page will save you from any more frustrating blanks that come with standard copywriting territory. * How to give your headlines meaning. Any part of your marketing material is useless unless it really means something to the reader or listener. Learn not only how to create meaning in your marketing material, but how to have your audience immediately visualize what you're saying, drastically reducing the chances of them leaving or being distracted. (Responsible for doubling the sales of my last product) * 2 ways to grab the attention of your audience that will not only have them sticking around for longer, but wanting even more (This amazingly even applies to sales material). * 3 methods of cementing yourself in your prospects mind, so much so that not only will they be far more likely to buy from you multiple times, but they'll spread your brand for you even if they decide not to buy. * The downfalls of the newbie sales material writer. Learn what others

are doing wrong so that you can do it right. Are your sales being effected by these as you read this? I'll bet at least one of these negative points is present in your material right now. We need to remove it, because you're losing sales. * Five elements of all successful sales letters. If you find any sales letter with a decent visitors to sales ratio written by a professional copywriter, you'll see they have all of these elements in common. The kicker is you don't need to spend \$2000 per letter (sometimes even more) to create sales material every time you launch a product. We'll show you how instead, right now. * Touch your readers and they will pay you for it. This course is packed with means and methods to touch your readers, not in a corny way, or an unethical way, but several triggers that you can use to create a strong bond with your audience are waiting to be taken advantage of. If you won't, the profit will go in your competitions pocket instead. It's your choice entirely. * 3 ways to seal the deal. You know, it's the first rule of sales in real world business, but I rarely see marketers taking advantage of it online. This one aspect alone could double your sales. * And much much more. What Would All This Be Worth to You? If you've been wondering how to make your website sell using proven copywriting techniques then this information is priceless. Remember you can't even hire a decent professional copywriter for less than \$5000 and you could pay up to \$25,000 or more for the great ones (if they're even taking on any new clients). You get to learn tested and proven sales letter techniques for mere pennies on the dollar. With that said, can you believe the price of the High Response Sales Letters Copywriting Package isn't even \$5,000? No, it's not even \$500. Or \$200. Or even \$100. As hard as it is to believe - your investment in this incredible resource is only \$1? Yes, I know it sounds ridiculously under priced because you could even get a professional copywriter on the phone for such a measly amount! For now, you have a rather simple choice to make: You can either... Do nothing at all -- and remain the same internet marketer with the same business and same challenges (and failures) you've always had. Still... working hours upon hours trying to promote a single website with a product that doesn't sell -- and still... not make anywhere near the type of money you want to make. Or you could... Grab the the High Response Sales Letters Copywriting Package! and start earning the type of money you want to make right now I think your choice is crystal clear. P.S. Everything you're about to read is tried and tested material. This will apply to your business not just once, but for many years to come. It's an investment not just for today, but far into the future.
