

# Screen Saver Builder Pro Plr Mrr!

[DOWNLOAD HERE](#)

You've purchased this product with Master Resell Rights and Private Label Rights. You are free to sell it and keep 100 of the profits. 30-day trial with notification of days used so you know how long is left. Easily add images to a list. Re-order image list quickly. Remove single images, or clear list and add a new folder of images. Save and load settings for screensavers. Use image list order or use a random order for image display. Stretch images for display with no distortion, or use default image size. Using image sizes of 800x600 and 1024x768 can let you make custom screensaver versions for different screen sizes; ensuring the highest image quality. Use image transitions such as slide, fade, blinds, and more. Add locking options such as password, days to expire, or restrict the number of images until the user enters the password for the screensaver. Add scrolling messages to display during the screensaver, or hide them after the user enters a password. Include music and sound effects in your screensaver, you can loop the play list for continuous music play or just play it once. Set branding options such as: Title, Author, Date, Website, and filename. Set advanced branding options by adding Copyright name and date or adding a button on the configuration screen that links to your custom document. Add custom about screen text, and even an additional about screen message that you can include extra advertising text, links, or other information to your users. You can build the screensaver and save it to a file, or you can build an installer so you can distribute your screensaver to others. Install your screensaver on your own computer easily. Easy to understand help file is included with detailed instructions on how to create your screensavers. \_\_\_\_\_ See My Store For More Deal!!! [magama.tradebit.com](http://magama.tradebit.com)
