## **Match Masters Pro - Personal Classifieds Dating Script**

## **DOWNLOAD HERE**

MATCH MASTERS PRO MYSQL PERSONAL CLASSIFIEDS DATING SCRIPT Based on our popular matchmasters script this is a more serious solution for dating sites. The pro version uses powerful MYSQL database structures and modular code design to allow complete customization of the searching/profile parameters and html output (cosmetics). Capable of altering the search parameters/fields to unlimited option or keyword based search fields. Multiple keyword search logic allows matching for complex search profiles. Admin panel allows counting members, bulk emailing all members, login/edit/delete of member profiles. Members can upload photos, search, bookmark profiles, view member photos, and send private email messages anonymously. Many more features planned for this systems future upgrades. May be implemented as a free "attraction" to your existing website or easily integrates into billing systems to charge for services.
