Twitter Traffic Gold Manipulate One of the Webs Fastest Growing Trends to Help You Cash in on Consumers Short Attention Spans! Brevity. Its whats hot on the web right now. You have a split second to grab your target audience by the eyeballs and pull them into your lair and if you cant manage to do it, youll be back flipping burgers or cutting through cubicle mazes in no time. How often do you get frustrated with Google AdWords because you have to sit and brainstorm a clever way to use 25 characters to capture your audience? And youre paying for that, too! For those of you wanting to get your feet wet with web 2.0, but who dont have the time it takes to set up lenses on Squidoo, profiles and bulletins on MySpace, or other extensive content on social networks, Twitter may be just what youre looking for. I have a blog. In fact I have four. Now ask me how often I post on them. Its hard as hell to muster up the content and find time to post valuable information for these blogs on a regular basis and Im a writer! I cant imagine how difficult it is for those of you who have to struggle through the writing process, too. With Twitter, youre going to love the couch potato environment it offers because you can be lazy and still cater to your niche as often or infrequent as you want to! Master Resale Rights Included!
