Impact Web Audio Pro with Personal Use Rights Instructions Included! Would You Like To Grab Your Visitors By The Ears, Dazzle Them With Professional Quality, Streaming Web Audio That Makes An Impact, And Watch Your Profits Soar ... You Can Do It, In Just Minutes - With Impact Web Audio!" I'll show you exactly how you can create professional, streaming web-audio players with just a few clicks of your mouse ... even if you don't know a single line of HTML code, and have never recorded a single audio file in your life! What if I could show you a way to grab your visitors by the ears, virtually forcing them to not only hear most important marketing messages, but actually listen to them? And, what if I could show you how to do all that, with just a few clicks of the mouse? It's no secret that using streaming audio on your website can be effective, but if you weren't blessed with a voice for radio, your plain-jane tone could be killing your sales. What you need is a way to start using the same time-tested "tricks" that professional broadcasters and sound engineers have been using for years to take their clients "normal" audio, and turn it into gold. Impact Web Audio Uses The Same "Trick" That Professional Broadcasters And Sound Engineers Use To Take 'Normal' Voices And Turn Them Into 'Gold'! So how do they do it? Simple, they add a background loop behind the voice track that masks all the imperfections, and makes them virtually disappear. That one simple, yet amazingly effective "trick" can dramatically improve the rhythm of your marketing message, and bring your "ho-hum" audio to life. Now look, this method of improving voice-based audio tracks has been used by the professionals for well over 50 years, but up until now, it was nearly impossible for the average person to do. Until just recently, adding a background loop to your voice-based audio required specialized audio editing software, a wealth of technical knowledge, and even then, could easily cost you hours of your valuable time. With all those obstacles to overcome, is it any wonder that so few marketers were using this deadly effective technique? What Makes Impact Web Audio The Perfect Solution? This easy-to-use application was designed by marketers, for marketers, making Impact Web Audio the perfect solution for all your online marketing needs. Impact Web Audio is obviously a superior solution. It is the only point-and-click program, designed specifically for marketers, that puts the power of a professional audio engineer to work for you. Still not convinced? Just take a look at this
