

Php Script Collection Pack

[DOWNLOAD HERE](#)

This PHP Collection Pack contains:

- * Banner Ad Rotator #1: A great script with a simple to use admin interface. Script allows you to display banners at a pre-defined location on html pages. Banners/images can be located in different directories. You can set the size of the banners, url location and the speed of which you want the banners/images to display
- * Banner Ad Rotator #2: The same script as above but you can have the banners randomly be displayed instead of just at pre-defined intervals. Download them both and then choose the one you like the best.
- * Web Based Form Mail Script: Great and easy to use. Configurable look by changing background colors, text etc. Validates user input for name and message. Admin options to create filters and block SPAM emails. Detects your website's home page and automatically assigns it to the header. Use on any website that supports php.
- * Guest Book Utility Script: Want to add a guest book to your site? This can be added to any web page. Configure the look and feel, view users common one by one with next and previous option. Admin can delete unwanted entries, block ip address's, block specific words, enable/disable the use of html tags, and more admin features.
- * Image Rotator: Simple image rotator that rotates images in a web page at a pre-defined interval. Options to set the size of the image and how long it is displayed before showing the next image. Great for image slide shows.
- * Feed Back Form: A web based Feedback Form Mail script. Configurable look, change colors, background etc. Validates user's name and message, admin options to create filters, block specific words and more. Can be integrated into any website that supports php.
- * Support Form: A web based support form so that members of your website can contact you with support related questions. Configurable look, change colors, background etc. Validates user's name and message, admin options to create filters, block specific words and more. Can be integrated into any website that supports php.
- * Event Calendar: This event calendar will allow your site visitors to see a schedule of upcoming events. Admin can manage events and add, change, modify and delete them. Customize the colors for the header and footer, change the size of the calendar. Events older than 24 hrs are automatically deleted from the schedule to keep it clean.
- * Registration and Mail Management: With this tool you can manage all members who have registered at your website. You can send your registered members mail and even a newsletter using the

simple admin utility. * Rating System: This script is great for allowing your site visitors to rate your site using the rating of 1 - 5 stars. Script is database driven and displays the average rating given by all visitors and the total number of ratings. Easy to install and use.
