It is a blog automation solution that enables webmasters and SEO professionals to rapidly build an empire of keyword targetted blogs. No matter if you want to create new blogs or have old established blogs, you can put them on auto pilot pretty easily just in few minutes! Automatically build blog posts by pulling RSS & ATOM feeds. Blogs Automater handles all the necessary work for you! It grabs fresh content for your blogs. It rewrites blogs posts, it customizes them. It automatically publishes blog posts to your blogs. Operate Your Own Money Making Blogging Empire The Easy and Completely Automated Way! In details what Blogs Automater does Automatically for You: Operate Your Blogs Totally Automatic! Yep, thats the SHOCKING truth! Finally a product of new dimensions is introduced with which you can automatically operate your blogs! It is the ultimate mass blogging software. It can't be better than that! Operate ALL Your Blogs! Just one install of Blogs Automater is needed to operate all your blogs. No matter if you have one or thousands of blogs, you can manage them just with one script install and from one admin place. The location of your blogs does NOT matter - they can be on same domain, same server, other domain, other server! What more could you want? Automatically pull content from RSS & ATOM feeds The software is able automatically to extract new content from RSS & ATOM feeds. You don't need to do anything else than just importing the feeds urls and let the script do the rest! Supports All major blog platforms! The software is compatible with a big variety of blog platforms and software. No matter if you use Wordpress content management software or you have your blogs hosted at services such as Blogger.com, Wordpressand others you can put them on auto pilot! You can use it and with any other kind of blog software or service as long as it supports remote XML-RPC administration! Smart Content Categorization & Maintenance You are able to keep and maintain your feeds and content organized by 2 different criterias - Sponsor and Category. This way you easily can keep your content from different producers and from different

niches/categories separated. Content Database All posts pulled from feeds are stored in a database before publishing to your blogs. You are able to easily browse your posts database, easily preview them and edit them if necessary! Don't loose a post, let your posts database grow by itself with the time! Content Rewrite Engine Allows you to define set of keywords you wish to be replaced with another set of keywords. It can even pick replacement words by random! This helps improving your keyword density and improves your Search Engines ranking. Content Relink Engine Allows you to convert defined set of keywords to hyperlinks automatically. This helps for interlinking your own sites and pages and improves your Search Engines ranking and overall traffic. Content Manipulation Engine You are able to assign the script automatically make keywords bold, italic or underlined. This helps to bring more attention to certain parts of your blog posts for the reader's eye. Links Rewrite Engine The software is able automatically change the link targets and their "rel" tag attribute to whatever values you want! Custom Content Inserts The software enables you to automatically insert custom headers and footers to the posts published at your blogs. You are able to make them more attractive and more money maker! Campaigns Driven Blogs Automater is campaign based, allowing you multiple and different rules for your rewrites, relinks, and etc... Basically for each different blog you can define different settings you may need to meet that exact blog personal style. Multi Category Support The software is able to publish the posts to one or multiple categories at your blog (if your blog software supports it). Keyword Based Publishing You can define a set of keywords that a post should match to be published to a blog. With a smart search engine, Blogs Automater can publish only highly keyword targetted posts to your blogs. Unlimited Licensing The software is licensed to "single domain install" only, meaning with one copy of it you have no restrictions on the number of feeds to pull from, the number of posts to publish or the number of blogs to publish to. Those are all unlimited! With ONE quick easy install you are ready to automate ALL of your blogs on ALL of your domains. No need to install it over and over again! Friendly and Helpful Interface. Blogs Automater is designed pretty carefully to make your work with it like a child's game. Everything is properly arranged and the most important features are always just infront of your eyes. Most part of the work you will regularly do is automated and you need mostly to use the mouse and not the keyboard. Endless Possibilities and Features Blogs Automater is a very complete blog automation solution and it shows, it is used on a large number of websites around the world. It is always under development and improvement, to provide you unique features and possibilities. For your convenience we have listed an overview of the

most important features. By no means this list is indented to be complete, but mentioning all the features of Blogs Automater would simply take too much space. Need more features? Just Request them! We pay special attention to every customers opinion and suggestion on improvement of Blogs Automater thats why the script is being constantly developed and improved to fit the needs of all our clients. Pay Just Once! The biggest deal with Blogs Automater, is that you have to pay just once! You need just one copy of the software to automate all your blogs. No longer you need to pay for a software twice or even tripled when you want to use it for multiple purposes. Just grab and pay once for Blogs Automater and automate as much blogs as you want with it! Some places even charge you a monthly fee for half of what Blogs Automater does with your low low one time investment! Main New Features as of version 1.5 Image Download & Processing Blogs Automater is now able to download and save images from rss feeds to your server. No more broken images, no more slow loading images! Script is also being able to resize them automatically to dimensions specified by you. No more big images breaking up your blog design! Affiliate Verification Probably the most unique feature that no other software can provide you! Verify if your entries from rss feeds contain your affiliate id. Stop loosing sales by publishing sponsored posts across all your blogs which don't have your affiliate IDs. Sophisticated Review Functionality Script now can keep newly crawled posts in database as pending and until they are reviewed by you, it won't publish them. You easily review posts with framed review screen. No more crap posts on your blogs, only approved ones will appear! Manual Posts From now on you can maintain and manual posts in the script database, not just ones crawled from rss feeds. Keep all your manual posts tidy arranged in the script database and ready for publishing anytime at any blog! Improved Blog Update Controls Script provides you more power about randomizing the blog posts publishing. You can totally control the random update period, you can skip saturdays and sundays and lots more. Automatic update period switching, extremely useful for initial blog feeding! Direct Posts Publishing You can now easily within 2 mouse clicks publish any of your posts to any of your blogs, without going through campaign or something. Simply find the post, select a blog to be published to and hit go!
