Do you have projects to plan? Do you want to take a professional approach? Do you want to increase your success rate? Then Project Genius is the software that will help you plan your projects! From now on, you will be able to take a professional approach to your project planning and increase your success rate. You will no longer have surprises during the course of your project. You will better know what you want, you will organize your brain storming sessions better, and you will set your milestones and deadlines with ease. Project Genius is very easy to use. You can get started with it right away. The software will explain every step in the process, take you by the hand, and make the process obvious to you. There is a real methodology behind this. You will not have to study this methodology: It will come naturally to you, thanks to Project Genius
