Serious About Wanting To Know What Your Customers Need!? Heres How To Build Super Info Capturing Forms For Your Websites! Just A Few Examples Of What FormFiLLa Can Do For You Instantly!

Quotation request forms If you are a service provider, the most crucial item for you is to allow your prospects to leave you information on what they need so that you can grab the specific information, then reply them with a quote for the service, that you will be rendering. Using emails and informing them of the

type of details that you need is a thing of the past because with FormFiLLa, youre able to capture exactly what you need! Feedback and contact forms Its a sure must have and no questions about that! Why not let your customers contact you easily with a customized feedback or contact form! Job application forms

Do you have job positions open? If not then you do need to outsource your projects from time to time right? Why not build a customized, laser targeted detailed form so that you can have the information you need before you decide on the candidates! And you can even let them upload their resumes with the

handy file uploader! File Uploader Do you do freelance design or maybe you would like to have your customers upload stuffs so that you can review them later? With the file uploader feature you can have that and more!! Coupon discount forms Ask your prospects to fill up a form and while you capture their

details and information, they get to have a discount just for doing that! A perfect win-win solution! Pre-Qualifying Landing Pages I am sure you have seen this before...remember those type of landing pages where they ask you a series of questions, only after clicking the submit button, you will get to see the sales copy? What it actually does is reinforce the prospects position to buy through the rules of

commitment and consistency! It also acts as a filtering process where only serious buyers proceed! With FormFiLLa doing this is a breeze! Just take a look at the added options and features I have crammed into this system for you... Spambot protection Have no worries about spambots spamming your database! FormFiLLa comes with an option that allows you to enable CAPTCHA protection as easy as a single click! Intuitive form manager Using a centralized form management system allows you to view ALL your forms over different websites easily! Its designed to be non-cluttering and non confusing so that you can easily manage the results submitted by your visitors! User friendly interface Its simply impossible to get

lost in this tested and tried system configured to get you set up fast and simple. No need to learn any web programming language. Option to save to database or have em send to your email You can choose to save it your database or send to your email without any any hassles! You can also choose to have the submissions sent to both your Database and your email address at the same time! Form field validation Implement a rule for the fields to be filled before submission with a single click of the mouse! Neat desktop installer Ultimately easy configuration with the desktop installer! Just a few steps and the script is configured. Then just upload it to your site and VOILA....FormFiLLa is ready for action! Supports various field types Choose and combine between 7 field types and customize your forms to collect the information you need! Easily integrates with your current sites theme Each form you create can adapt to your current websites theme! No restrictive CSS or coding, just pop the code into your web page and its done! File uploader Allow your customers, prospects, visitors to upload files (any files) to your server and you can easily review it later! Multiple forms on multiple websites on one single installation You host the sites! No subscriptions! No multiple purchase for multiple websites! All forms easily stored on one centralized FormFiLLa location! Absolutely no MySQL configuration required! Dont you hate it to configure your MySQL and create a database for your scripts! What if youve already used up all MySQL Databases allowed by your web host? Well, with FormFiLLa, you can put all those worries aside because you can kiss any MySQL configs goodbye as FormFiLLa does not need one at all! ...Plus, So Much More Than Can Be Added Here! To Your Great Sucess. zqhoya.tradebit.com
