

Web Audio Plus! Add Audio To Your Website! Resale Rights.

[DOWNLOAD HERE](#)

Have you ever wondered how to add streaming audio to your website without the hassle of monthly fees? Well show you how in just a few easy steps -- 100 Guaranteed! Why Audio Works Better Than Text... To understand why audio works so well in making sales, think back to the last time you bought a product or a service. In many cases, you connected personally to the person making the sale, especially for items that cost a bit more. This sense of relating is key to making a sale, and Web Audio Plus allows you to provide this personal touch on your web site. Its simple to use (Im no tech guru, and cant work with something thats complicated or involves programming knowledge on my part). So my first requirement is that anything I use has to work, and be easy to use. Using it is simple enough for a non-techie like me. It takes three short steps: Use the microphone in your computer, and record the file. You can make it as long or short as you like, theres no limit! Upload the sound file it creates to your server (you own the file, not a third party) Cut and paste the code that Web Audio Plus creates for you. It does the work, and it only takes a few seconds to cut and paste the code that IT creates for you onto your web page. Tags: audio buttons, audio player, audio wizard, flash player, ipc audio wizard, website audio, websites sales
