I'd bet that even YOU would say that you HATE popups! Right? Thought so... But let me ask you something... why is it, that if everyone hates popups, and if they LOWER conversion rates, and if they are... dead... then WHY do so many people still USE them? The answer... because they still work. They need to be done right, have the right message, grab the attention of your visitors to be REALLY effective, but they are still a very useful tool. But what about all of those popup blockers out there? How are you supposed to "get their attention" when popups get blocked left and right? The answer is... "No Stoppin' This Popin" Version 2 is the latest and best popup building software to hit the scene. But these are not your everyday popups. These are absolutely attention grabbing , cannot be ignored, opt in snatching popups like you've never seen before. Want to see it in action? Set your popup to load an already existing web page within seconds. Control the frequency your visitor will see your popups - every visit, once per day, once ever and anywhere in between! Virtually UNSTOPPABLE by any popup blocker out there (we have not tried them all...but we did try quite a few... so far, none stopped it) And MUCH More!
