

Power Effects V 2

Version 2 has many more features and effects engines! Popup lightbox windows featuring images, entire web pages, video, audio, and more! If you want to create dazzling attention-getting effects on your website designed to elevate your product above a sea of me too offers and lame sales letters here's something I think you'll want to see. In a moment I'll show you a short video that demonstrates the power of this tool and its simplicity in use... but with DRAMATIC results, fueled only by your imagination. You see, I was looking for a simple way to get my message out there without looking like every other website out there. I wanted something eye-catching, for sure, but nothing like the flashing banners circa 1996. I wanted something dead simple to use, that would allow me to create multiple effects on the fly in just a few minutes without batting an eye.
