"Discover How YOU Can Have Instant Access To Your Very Own Line Of Smoking Hot, In-Demand Products... Without Having To Spend Hundreds Of Dollars Or Weeks Of Writing!" Read On To Learn How You Can DO ABSOLUTELY ANYTHING YOU WANT With 4 Brand Spanking New Products, And Make Handsome Profits Selling These Products As Your Own! PRICELESS BONUS: When You Reach The End Of This Letter, You Will Also Discover How YOU Can Jump Start Your Way To Profits With These Products Almost Immediately! One of the beauties of having your own Information Product is obviously making the sale instantly rather than having to wait for someone else to pay you your affiliate checks, and only a petty fraction of the product price on top of that. And as long as you're creator of your own product, you own the full rights and in a real essence, you have the license to decide your own profit potential. Which is perfect, of course, since you can also brand yourself in the process. I've also come to know of marketers who publish their work offline, too, simply by converting their E-Books into hard copy paperbacks - exploding their income further. And Here Are Even More Reasons Why You Should Have Your Own Info Product... You can spawn more than one cash points of your choice from your own Info Product, such as One Time Offer, back-end offers, and affiliate links within, Since you own the full rights to your own E-Book(s), you can offer a "light" version and either charge a lower price to those who can't afford a bigger investment, or even give it away as a "cookie bite" and build your opt-in mailing list, You can also offer your product in your own paid membership site or as a bonus to another product you are selling, You can also earn more by selling the Resell Rights or Private Label Rights to your product, And so much more! Your imagination is the limit. All in all, owning your own Info Product or line of Info Products is one of the best choices you can ever make in your Information Marketing career. But There's A Problem... .. and it's called product development or product creation. However, believe me: selling your own Info Product is too lucrative to be passed on just because of this barrier. So let's evaluate your best option possible: Solution #1: Write Your Own E-Book(s) Often times, creating your own Info Product demands a lot of writing skill, expertise, niche marketing research, and incredible knowledge on your part. And if you don't have any flair or time for writing or you absolutely hate it, you will do well to leave this

option out. Solution #2: Hire A Ghostwriter Some call this the "secret weapon" of gurus. Engaging ghostwriters can be one of your best choices... only if you can afford it. And if you don't have at least a few hundred dollars to trust someone else to do the writing for you, you will have to leave this option out, too. Solution #3: Purchase Products With Resell Rights This can be a good and fast way to have instant products to resell and pocket 100 of the profits. The downside, however, is that you don't own the product. In other words, you can only do so much with the product as the ultimate copyright holder is the product author. And If None Of The First 3 Solutions Are In Your Favor, Then... .. may I suggest that you drop your product development chores and get your hands on... Not one, but four (4) new, smoking hot Info Products - all targeted at hungry niches - complete with *no restriction* Private Label Rights! Yes, you've heard me right. Contrary to most products out there where product authors are offering limited rights to their Private Label Rights, I am offering you ZERO restrictions to the usage of the Info Products. In a real essence, YOU can do anything you want with them - your imagination is the limit! PRICELESS BONUS: When You Reach The End Of This Letter, You Will Also Discover How YOU Can Jump Start Your Way To Profits With These Products Almost Immediately! First, Let Me Tell You About The Products You Will Be Calling Your Own In The Next Click...
