Article Site Directory Full Package With Mrr

At Last! You Can Make Money With Google AdSenseWithout Having To Write One Word of Content! We Spent Thousands Of Dollars And Over 2 Months Of Our Time Creating A Unique Article Directory Script. You Can Now Run An Article Submission Site That Gets Other People To Submit Articles, Which Builds Thousands Of Google AdSense Revenue Generating Pages Without You Lifting A Finger Plus It Builds You An Email List At The Same Time! Were Talking Serious Money Here! But wait, you say, why would people submit articles to your site for free? Well, its pretty simple. Inside all of us is an approval-seeking being who wants to see his or her name in print. Admit itdont you smile just a little bit when you see your name on a nameplate, or a sports roster, or in a letter to the editor? Everybody wants to be a star. Theres another aspect of human nature that will make people send you free articles. When someones passionate about something, whether they love it or hate it, theyll write about it for free just to get it out there where others will see it. But the biggest reason these people will submit these articles to your new Article Directory site is to be able to add their name and link back to their site at the bottom of every article! They know these articles will be copied from your article site and used by hundreds or even thousands of other people all the while getting their name and resource box links spread all an out the internet! So what my script does is take advantage of human nature. Sounds too good to be true? Well, it isnt if you have the right tool. The best part is while all of this is going on- other people are building your massive site for you, a little bit at a time just like the search engines like it! The Right (and the Wrong) Way to Get Free Content Getting people to write jillions of free articles for you sounds great, right? But theres one other thing to considerhow are you going to keep track of all those peoples work and how are you going to track your AdSense revenue? You need a back office system. And thats just what my script includes. Included is everything you need to run your own article web site and a fully functional administrative backhand to keep track of all your users, and also functions that would allow you to e-mail all your users as well. Plus you do not have to be a genius to run this system, the backend is just as easy as adding your content into by typing it into the provided boxes- You do not need to know a thing about html! BUT WAITTHERES MORE! Heres What All You Get In The Script 1. Absolutely everything you need to run your own turnkey

article web site. 2. A fully functional administrative backend to keep track of all your users and articles! 3. Easy-to-use functions that let you e-mail all your users. Finally!
