Whilst we place a lot of emphasis on designing jaw-dropping graphics, there are other factors such as web site design, ease of use, and SEO to consider to ensure that now only you think your site looks great, but your visitors and the search engines do too! What Can I Do With These Graphics?....

1. You can re-face your existing product thats not selling so well! You may already have your own product thats running live on your server right now. Problem is, is it really pulling in the sales like you hoped? If not, it may very well be down to your presentation! By simply rebranding one of the graphics packages to match your product name, youll instantly have a new site that you can be proud to promote!
2. You can re-face your old PLR product! PLR is useless just sitting on your hard drive. You may have it set aside in a to work on later folder but the fact is youre put off from the amount of work youd have to go through into order to bring it to life! Simply choose a graphic set and rebrand with your new product name and youll finally have your new PLR product that you invested in making money for you, rather than costing you!
3. You can create a new squeeze page to collect leads! Building squeeze pages from scratch does take a toll on your time. What better way to get yours up and running by using a template thats already been

made for you so you only have to concentrate on the mechanics of your site! 4. You can create a review-style website that promotes other peoples products! Review sites or pre-sell templates as theyre also known, are usually very plain and boring. It doesnt have to be that way. Why not stand out from the affiliate crowd and make a statement with these graphic templates! 5. You can create an graphic store and sell them individually! If you dont like the idea of using these graphics for your own use, then why not sell them? If you purchase the Master Resell Rights license, youll be able create a new e-store dedicated to just providing graphics for internet marketers! 6. You can sell them as they are! Want to make your money back many times over? Now you can sell the entire graphics package exactly as they are without any modification or needing to set up your own site! If you opt for the Master Resell Rights license youll get all the tools you need to start selling valuable in-demand graphics that marketers and webmasters NEED! 7. You can use them as membership content to keep your members happy! If you already own a membership site, you can add these graphics into your members area and keep your customers very happy! Even if you havent got a membership site yet, these graphic packages will form a great basis for you to start with! These are just a few ideas off the top of my head but you get the idea. These website graphics have so many uses and value in themselves that it will cost you NOT to have them!
