Paypal Raffle Script

[DOWNLOAD HERE](#)

This php Paypal Raffle Script uses a database to store member and raffle information. This is setup as a fully functional website but can also be used as an addition to any existing website. Visitors can come browse the website, see current and past raffles, view frequently asked questions, view archives, and register for membership. Registered users can update their details, add money to their account funds using paypal, purchase raffle tickets using account funds, view raffle ticket history, earn 5 from their referrals winnings, and view their referral statistics. The administration area is packed with details and each part has a help box below it. The admin (you) can open new raffles, view/suspend/delete users, view finished raffles, view archives, view purchased tickets, give tickets to members, view winners list, download winners list, catch potential frauds, view profits, view and respond to support tickets, credit accounts, view statistics, add/edit/delete frequently asked questions, and much more. Installation of this script is simple with the included detailed installation instructions. You can have this script installed and ready for visitors within 10 minutes. Features: * Built In Affiliate Program * 4 Different Templates Included * Highly Detailed Administration Area * Simple And Fast Installation
