Now YOU Can Make Friends and Find Love Online from the Comfort of Home! Dont Waste Anymore of Your Precious Time or Hard-Earned Money Going Out to Bars You CAN Find Love On the Internet Starting Today! Dear Fellow Single, Are you tired of the dating rat race? I mean really, really tired of it? My name is khairilz and I was once in the exact same position as you. Id been single for what seemed like ages, my social circle needed expanding and I was fed up with bars, speed dating and well-meaning attempts from friends to hook me up. Its not that I wasnt meeting some really nice people. I could usually count on meeting someone interesting, even promising, once every couple of months but that just wasnt enough for me and I was getting really fed up with the amount of time, money and energy it took me to do all that socializing. Then I saw an advertisement for an online dating website and thought to myself: Why not? Internet dating is not really taboo anymore tons of people are doing it. I decided I didnt have anything to lose other than my pride, and I signed up for my first membership at an online personals site. Boy, did I have a few things to learn! I was literally blown away (and quite overwhelmed) at the amount of information I had to fill out just to get started. After plugging in my responses to the rather lengthy compatibility questionnaire required by the site, I also had to create my own personal profile. . If youve ever signed up with any of the big sites like Matchor eHarmony, you know exactly what Im talking about. It seems like the only thing these sites dont ask you for is a sample of your DNA.. After a while, though, I learned how to work the system and I learned how to tweak my personal profile for maximum results weeding out the weirdos and attracting exactly the kinds of people I was looking to meet. I almost felt a little bit guilty going on so many great dates while my friends kept struggling through the usual weekend rituals of bar-hopping and blind dates. So, I decided to put all of my secrets into an easy-to-read report. The good news is that Im not keeping this report among friends I want YOU to benefit from it, too. Finally, youre about to get your hands on the Internet dating big picture for FREE and learn how YOU can finally meet someone special quickly and easily. Introducing... How to Make Friends and Find Love Online! The Insiders Guide to Internet Dating Inside this report youll discover: * Why your mindset is one of the most critical factors in your online dating success * What are the best online dating sites available today, what

they cost and why you need to become a full member to make the most of them * The importance of your personal photo and personal ad headline * How to create a kick-butt personal profile that shows off the real you and reels in more responses than you can handle! * The truth about meeting people offline. make sure you follow these steps before you EVER agree to that first date * How having a businesslike approach to your Internet dating adventure saves you time, money and frustration..
