The Affiliate Video Brander (MRR) + Gift Now YOU can use our ridiculously easy video tool to make your affiliate commissions explode through the roof...and heres the most ingenious part-- You DONT even have to make your own videos! This is NOT just another web page telling you that video is hot. I know that you ALREADY know that, so I wont waste your time trying to convince you of something you are well aware of... However, what I have to show you about video is very different than what youve been told and it will change how you think about marketing with video from this point on. Its not your fault, but youve been leaving commissions on the table unknowingly and I have to break some news to you thats a little shocking... Affiliate Marketers Have Been Kept Out-of-the-Loop And Prevented From Prospering With Online Video! You heard me correctly... Up to this point, video has been for the makers of the videos who control them and show them to put money into their own pockets -- only. Im sure youve seen videos embedded on sales pages, or linked from them. Those videos were created by the product vendors to promote and/or demonstrate their products, BUT as an affiliate you could not use those videos as a marketing tool BECAUSE there was no way to make sales commissions directly from them. That one important element was left out of the video puzzle for some reason. There was no concrete way for you to refer a sale by simply showing a video - UNTIL NOW. In the marketing world, a lot of videos are still being used as testimonials or talking head presentations up to this point... But thats not nearly the full potential of using online video - not even close. In fact, our market tests prove that using targeted video pages helps focus the viewer 100 on the message and the content. Your Video Powered Commissions Are Waiting! Are you ready to stake your claim in the lucrative growing market of online video? But wait a minute... Maybe you already know how time-consuming it is to create your own videos, and the product vendors who create videos only show them for their own use (not for their affiliates!). Up to now you were correct in thinking just that, and your only choices were to invest a lot of time and money in learning to run expensive video tools... OR just plain lose out on this monumental opportunity all together... But with Affiliate Video Brander, huge video powered commissions await you... and you DONT even have to create your own videos or mess with difficult Flash files or HTML programs, BECAUSE all you have to do

is click a few buttons and our software does the rest. Now Its So Easy to Start Making Those FAT Video Commissions... Unlike other peoples attempts to incorporate videos into marketing, theres NO distractions to the viewer when you use our video strategy. There are no unwanted outside links or running text, which tend to distract the visitor, and leech away from your sales. Instead, our targeted pages provide only the video, active links of your choice, and an optional automatic redirect that leads directly to the sales letter or order form. Our results have shown that THIS strategy is extremely effective! So, if youre going to send visitors to a video page, then why not use a super focused video page with a built-in call to action. A page that not only Tells but also Pre-Sells, leading viewers exactly to where you want them to go. In other words, instead of merely sending visitors to a presentation, youre sending them to a sales-driving, commission earning machine! With Affiliate Video Brander, affiliate marketing meets video dead-on and puts this new powerful method directly into YOUR hands. Now YOU can use online video for REAL profit! With the ocean of online videos being created everyday, you have access to an endless supply of video content thats ready to help you make fat commissions when people buy after viewing your branded video pages! When I understood this principal I went and got permission to test some videos using our newly developed Affiliate Video Brander. Soon my eyes were popping wide open watching sales pour in, simply by BRANDING the product videos with my own affiliate link! All I had to do was SHOW the video, and when the viewers went to the site to buy the product, the sale was MINE! I didnt even create the videos, but was paid a handsome commission just by letting people watch them. Many bought the products exhibited in the video and the sale went through MY AFFILITE LINK which was branded along with the video. I Created a True Win-Win Situation Where Extra Money Was Pouring Into My Bank Account And The Vendors Were Happy to Pay Me More Commissions! The full benefit of using video was now in my control which allowed me to make more money, and the vendors were thrilled that I was able to use their videos to drive more sales of their products. After all, what product vendor wouldnt want their affiliates making more sales? Essentially the vendors are getting more bang for their buck by allowing their affiliates to leverage the work that has already been done creating product videos. Since its such a win-win, its EASY to get permission to use a vendors video, which means youll have a huge pool of products and videos to choose from. Its So Easy A Child Could Use It... Hmmm, You Got Any Kids? Maybe Its About Time You Put Them To Work! Using our cutting-edge new software is simple as 1...2...3!

Step 1 - Type in the URL of the video you wish to brand, and choose the folder where you want to save

the files. The program will generate the files in an easy format so you can instantly upload and start profiting from the branded video.
