Discover how you can start your own highly profitable, completely automated online business in less than 30 minutes from now! SEE PACKAGE CONTENTS AT: eshoreshoppe.com/ip-niche/contents.html How would you like to own an online business that earns you money 24 hours a day - 7 days a week, without you even lifting a finger? You will earn money while you eat, sleep and have fun! Sounds too good to be true? Well, it's not! Just keep reading! Dear Friend, It's no secret that ordinary people like you and me are making thousands of dollars every month working from home, running simple websites that require almost no work or expenses. It doesn't matter how old you are, where you are from or what your education level is. No experience of any kind is necessary. All you need is a computer and access to the internet. It's also a fact that most people who try to make money online focus only on internet marketing related products. But the truth is, massive profits are being made with products that target other categories, beyond internet marketing. Topics such as health & fitness, diets & recipes, crafts, gardening, weight loss and sports are some of the most profitable on the internet! And the best part is that most of these markets have little or no competition at all! Up until now, finding and profiting from these niche markets generally required a lot of work and was very time consuming... but not any more! iProfit Niche Package will provide you with everything you need in order to dominate these markets quickly and easily! By the time you've finished reading this page you'll know everything you need to know about starting and running your own automated, highly profitable online business in no time at all. In fact, you could be selling and profiting from your own niche products in just a few minutes from now! If you are interested, keep reading! What is iProfit Niche Package? iProfit Niche Package is the biggest collection of money-making niche products available on the internet. All the products included in the package are bestselling titles that currently sell thousands of copies every day. But that's not all. The iProfit Niche Package itself, and all the products contained in it, come with master resell rights. This means that you can sell the products yourself and keep 100 of the profits, and you can pass the resell rights on to your customers as well. All the individual products contained in the package come with professionally designed sales websites, so you can start selling them immediately. All you have to do is add your order link at the

bottom of the sales pages! You can sell the individual products contained in the package separately, together, or you can even repackage them. You can also sell the iProfit Niche Package itself! We will even provide you with a ready-made sales website similar to this one. In just a few minutes you could be selling the iProfit Niche Package and all the individual products contained in it, and keeping 100 of the profits! How to start your own high-profit website in six easy steps: Step 1: Find a product to sell. iProfit Niche Package provides you with 100 high-quality bestselling products that are currently in high-demand. Step 2: Design your sales pages. iProfit Niche Package and all the individual products contained in it come with professionally designed sales websites. All you have to do is add your order link at the bottom of the page. Step 3: Setup credit card processing on your website. Accepting credit cards online is neither complicated or expensive. Many companies allow you accept credit cards on your website, and in exchange they deduct a small amount from each sale to cover their fees. The iProfit Niche Package 'Getting Started Guide' will provide you with step by step instructions on how to setup credit card processing on your website in just a few minutes. Step 4: Find a website host and upload your sales pages. Even if you don't know what a website host is and have never uploaded anything before, the 'Getting Started Guide' that's included with iProfit Niche Package will provide you with step by step instructions on how to upload your website in just a few minutes. It will also show you where to find a website host for free or very little money, and how to get your own domain name. Step 5: Promote your website & products. The most important step in making money online is promoting your website and products to the right audience. Even if you are a complete novice to internet marketing, iProfit Niche Package will show you how to promote and advertise your website, using both free and paid methods. Step 6: Watch the orders come in! Receive an automatic email notification from your credit card processing company every time you make a sale! As you can see for yourself, we have already completed most of these steps for you. It would literally take you months to create just a single product and a single website to sell that product with. But now you don't have to waste your time and money creating products and websites that may end up failing because of their low quality and value. You will be provided with 100 top-selling, high quality products and sales websites so you can begin making money immediately! There has never been a quicker or easier way to start your own automated online business. All the hard work has already been done for you. All you have to do is insert your order link, upload your pages and begin making sales! You are literally minutes away from owning the same products and

resources that other people are using to make thousands of dollars every month. Don't know how to edit or upload web pages? No problem! Although iProfit Niche Package comes with a ready-made sales website that only requires you to add your order link and email address, some people may encounter difficulties placing their order link and email address in the sales website using an html editor. That's why we have created the iProfit Niche Package 'Sales Page Generator'! Sales Page Generator - Click to Enlarge Now you can add your order link and email address to the sales page without having to use an html editor to edit the html code. Simply run the iProfit Niche Package 'Sales Page Generator' program, type in your order link and email address and click 'Generate'. That's it! Your personalized sales page containing your own order link and email address will be generated automatically on your computer! Now all you have to do is upload the page to your server and begin making sales! Also, the 'Getting Started Guide' that's included with iProfit Niche Package will show you step by step how to upload your website, how to setup your order link, how to process orders and everything else you need to know in order to make money online! iProfit Niche Package is not only the biggest niche collection available on the internet, it's also the best. All the products included in the package have been carefully selected and are of the highest value and quality. Also, the package is updated regularly with brand-new titles, so you will always have access to new products to use and sell. And the best part is that you'll receive all the future products that will be added into the package for free, since the iProfit Niche Package comes with Free Updates! All future versions of iProfit Niche Package will be made available to you at no additional cost. This alone, can save you thousands of dollars in the future! *****
