Warning: You could be losing sales RIGHT NOW! "Here's How You Can Convert More Visitors Into Customers With Very Little Effort Using This Ethical Exit Traffic Technology!" "In Just Minutes From Now You Can Experience the Raw Power That is Locked Inside Profit Negotiator and Use it To Immediately Start Maximizing Conversions, Capturing More Leads and Generating Bigger Profits for Your Business!" If the headline above intrigued you just a little bit then I know a couple of important things about you... 1) You want to make the maximum amount of cash from the existing traffic that is hitting your website but are possibly lost as to how to make that happen. 2) You may have been exposed to tons of tools, ebooks and reports on how to convert more visitors that just haven't delivered on the promises that they've made. The good news is that you are going to get a real "cure" to your conversion woes in the next 3 minutes. I am going to share with you the truth about problems that thousands of website owners are having with conversion and also provide the remedy to that problem. Before we get to that, we need to go over something that very few website owners know about but has extreme effects on your response... Internet Customers Are Getting Smart, Ignoring Sales Messages & Becoming "Immune" To Ads Altogether! Many internet business owners have started seeing dramatic decreases in the response of their sales pages. A page that once pulled a 3-5 response consistently is lucky to get a 1/2 of a percent response now because of the growing awareness of ads online. While the net was once the "free information" Mecca of the world, it is now shifting toward a highly commercial model and savvy Internet users are becoming more aware of this. This has been devastating to many business owners online and many have "bit the big one" and totally closed their doors because their sites just aren't profitable anymore. Some marketers have scrambled and managed to keep their response high enough to be profitable but they are in the rare minority. And what is even worse about this is... Many Online Business Owners Are Spending All Their Time On The Latest Conversion "Fads" Just To Keep Their Site From Going Under... There are tons of new "tricks" and "fad" conversion tools that come out on an almost weekly basis in the Internet Marketing market. Sometimes, it's even several times a week! Many webmasters are scrambling to grab as many of these tools as they can at extremely high expense just to try and utilize them before they are no longer

effective! This leaves them trying to not only keep their site conversion profitable but also to try and recoup the costs of these tools that they are buying. It's very hard for many to pull it off. Most of these tools do "Sly" things that visitors catch onto within weeks and that don't work more than a month or two. Some also get your site banned with search engines which may shut your business down for good depending on where you are getting your traffic from. So what is a person like you or I to do to combat this? Convert More Visitors Via Time Tested "Negotiation" Tactics That Suck In More Customers With No Additional Traffic! You Can Increase Your Conversion Overnight & Keep It That Way! Introducing... Profit Negotiator *Plug n Play Setup - Profit Negotiator is so easy to use that a grade school student could do it. You truly can plug this system in in just a few minutes! Auto Pilot Operation - Once you set the software up, you don't have to do anything else, ever. It runs on complete autopilot! Streamlined Coding - The coding in Profit Negotiator is rock solid. You can bet that this software will take all the traffic you can throw at it without ever fouling up once! Time Tested - Based on proven psychological triggers this system isn't one of those "fad" marketing gimmicks that is going to stop working in a few months. Profit Negotiator is an incredible tool that grabs people that were leaving your site and sucks them back in as a paying customer. No, this isn't some kind of popup or crazy sound that scares and irritates your customer. Profit Negotiator is a software that you install on your webpage which changes nothing on your main sales letter. Order now for Only \$9! To your success, Tlmm Miller info@4-your-mind.com However, when someone clicks away from your page, the page automatically shows the customer a special offer "on your page" that offers them a discount to get them to buy now, or you can also offer them something free to get them to enter their email address to you can sell them in the future. You now can show a full page offer, not just what you can fit on one of those lame DHTML popups, but an actual full page. This page however does not "Pop Up" -- those can be blocked, it is actually a hidden part of your main sales page that magically appears when someone attempts to exit your page without ordering! This grabs a whole segment of customers that never buy at full price and wait for a special promotion by offering them that special promotion right away! This increases conversion like mad and pads up your customer email list as well as your bank account in the way of increased profits! Don't You Deserve More Profits And Higher Conversions On The Existing Traffic To Your Website? Profit Negotiator is an extremely easy system to use. If you can copy and paste and open your page in an HTML editor you have the skills needed to use this powerful system. Plus, we've provided a simple step-by-step instructions that will have you up and

running in less than 2 minutes!... Step 1: Open your ftp client to any domain you wish to use in which to install Profit Negotiator. Step 2: Select the "New Folder" option and name the folder you will use for installation. (I've chosen 'negotiator' for this example but you can use any name you like... it's totally up to you) Step 3: Now open the new folder you just created in your ftp client. (This should be an empty folder) Step 4: On the "Computer" side of your ftp client open the folder named "Profit Negotiator Script", select all the files and click the upload arrow to upload all the files to the internet. Step 5: Once complete check to make sure that all the files have uploaded to the web... you're now ready to start creating unblockable popups. Step 6: Now just head over to yoursite.com/negotiator and you're ready to go. There's no permissions to change or SQL databases to create. Installation should actually take less than 2 minutes (depending on how fast your ftp connection is) You don't have to worry about this being some crazy software that you need to read a hundred page manual on. This is the closest thing to a true "plug n play" conversion system on the Internet. Even if you have never taken a computer class you can do this with just the basic skills that I mentioned above, I promise.
