NEW For 2009 Power Effects Version 2.0 This isnt some animated GIFs, Flash, or Photoshop wizardry. Just point and click to create your own animated headlines, subheads, graphics, whatever... on the fly and get them to catch the instant attention of your website visitors! Stand out from the crowd and get your website and product noticed in an increasingly cluttered world! Version 2 has many more features and effects engines! Popup lightbox windows featuring images, entire web pages, video, audio, and more! See how simple it is to create these visual effects and more in the short video below... If you want to create dazzling attention-getting effects on your website designed to elevate your product above a sea of me too offers and lame sales letters heres something I think youll want to see. In a moment Ill show you a short video that demonstrates the power of this tool and its simplicity in use... but with DRAMATIC results, fueled only by your imagination. You see, I was looking for a simple way to get my message out there without looking like every other website out there. I wanted something eye-catching, for sure, but nothing like the flashing banners circa 1996. I wanted something dead simple to use, that would allow me to create multiple effects on the fly in just a few minutes without batting an eye. The headline above took me less than 10 minutes to make. Heres another example. Lets say you have a limited time offer. Why not demonstrate visually what would happen if they waited. Version 2.0 Is Here! And Its Badder Than Version 1.0 By A Long Shot!!!!!!!!!!
