Suffering From a Little List? ... Or Worst Yet... No List?... "Ordinary Guy Reveals The Shockingly Simple Paint-By-Numbers Blueprint He Used To Go From Zero Subscribers & Zero Cash to A Starving Crowd of Over 25,000 Without Spending a Single Dime On Traffic" "For The First Time... I'll Reveal One Of My Niche Lists... Which Grew to Over 4000 in 30 Days... and Now Bulges Over 25,000... Plain & Simple... All You Have To Do Is Rinse and Repeat ... 100 Guaranteed" From the Desk of: Sumit Menon Date: Wednesday, March 21, 2007 Dear Frustrated Internet Marketer, We all hear how building a mailing list is one of the most important aspects of being successful online. Time and time again, day after day, we hear The Money Is In The List. And You Know What? That Statement is 100 Correct So, if everyone keeps going on about building mailing lists and people keep asking how do I start to build a mailing list there obviously must be insufficient information on the market detailing how people can start, then grow their mailing lists. There is also the million dollar question - How do I get traffic to my squeeze page to start building my lists? Now, forgive me if I am wrong here, but... This Must Also Mean There is Still A Huge Flaw in The Information That is Being Sold and Shared Already... I got my first break through building a mailing list. Using free traffic strategies I managed to drive massive traffic to my squeeze page and in my first week got over 1500 names onto my list. These were CONFIRMED subscribers may I add. Before I even sent a message to these people, I had made a total of approximately \$400. And by week 4 ... I managed to get over 3000 people confirmed and over \$750 in PURE PROFIT. As with everything I do and teach, there is work involved. If you still expect to grow your business by doing nothing then this report is not for you. Let me stress, it is NOT hard. Nothing In Internet Marketing is HARD. So Please, Spare Me the It's Too Hard Speech Because it Simply is Not True... Everything can be broken down into manageable chunks and then pieced together like a jigsaw puzzle. ListBlueprint highlights the logic behind building huge mailing lists.
