Tired Of Looking For New Customers? Hunger For Residual Income Streams? "Discover How YOU - Or Anyone - Can Quickly & Easily Create Your Very Own Recurring Income Generating Asset Online... ... Allowing YOU To Make Handsome Profits From MASS Repeat Customers PLUS Build Your Expert Credibility Manifold!" From: Timm Miller DDear Internet Entrepreneur In The Making, Do you know the secret to creating recurring riches online? The one that allows you to make money at will and rope in sale after sale like clockwork? Yep, you have probably guessed it: it's having a responsive mailing list. You see, Internet users (that's you and me alright) often act on impulse when they surf web sites online. And high chances are that people who visit your web site now may forget you and your web site in 10 clicks later or so. And when these visitors leave, even higher chances are that they won't come back unless they remember to - and have a good reason to do just that. But if you would capture their names and email addresses via asking them to subscribe to your mailing list, you can still follow up with them via broadcast and automatic follow up emails. "Imagine, If You Do Just That..." You can build your own database of prospects... You can remind them about your main product that you are selling on your web site... You can make important announcements so these prospects can visit your site, And heck, sell them even more products! These are just some of the ideas, but you get what I mean, right? "But It's Often Easier Said Than Done, Isn't It?" Well, that's list building for you. Just having your auto responder, landing page and opt-in form all set up doesn't mean that it is a surefire guarantee to list building success. That in fact, is often just the starting point (which is really easy to do, by the way). The HARD part... is building your responsive mailing list. Yep, "responsive" is the keyword here. And unless you know how to build a responsive mailing list, I can easily hazard a guess that: You don't know how to build your mailing list, Your web sites are deprived of TARGETED traffic, and You probably do not know how to monetize your list, either! "Believe Me, I Can Relate To Your Pain & Frustration." That's right. I was in a position where you are right NOW. When I started out building my Online Business in my selected niche, I learned how to build my own mailing list - at the expense of a long trial and error. You can imagine my scenario was something like this: hundreds of dollars wasted into cheap (but non-workable) advertising, shooting

in the dark, spending months in the bewilderment, and frustration beyond words that my mind often read "!@#&*". Even though I have successfully built my own substantial database of responsive prospects and repeat customers by now, that was a really heavy price to pay for making a lot of guesswork and that I was unable to find a willing mentor or a guide of some kind. So yeah, I can definitely relate to your situation now. Which is why I have created these manuals - just for YOU! "Introducing List Building Mastery..." For the first time ever, you will discover not one, not two, but MULTIPLE list building techniques that you can pick, choose, mix, and match... and use!
