There are hundreds of "gurus" online who want to sell you products for \$297, \$497, \$997 or more, that they claim will show you how you can earn a living online. Don't buy them. I'm going to show you how to do it all for only \$7. Using my new Zero To Fifty In 30 Days! method, I now generate over \$5,000 a month. Read on to find out how... Dear friend, A few months ago I discovered something incredible. A secret, method, system (call it whatever you like!) that is so successful it has literally transformed my life. It has brought me financial security, happiness and contentment in both life and work. And I'd like to share this secret with you today. Despite what you may have heard, Internet Marketing and making money online is not as hard as some people would like you to believe It will NOT take you years to learn everything you need to know. You do NOT need a lot of money to start. You do NOT need to know everything there is to start earning good money. You do NOT need to come up with anything revolutionary. All you need is a proper step-by-step plan to a profitable and easy to start business. Of course you do need to follow the plan in order to get any results, but that is pretty self explanatory. The key to starting a successful online business is Finding a successful and easy to follow business model and duplicating it over and over again. Of course, there is more than one way to make money on the Internet and there is more than one successful business model to follow. And that is exactly where this guide comes in Because for the past few months I have been developing a step-by-step system that guarantees a minimum return of fifty dollars a day. It doesn't matter what you want to do online: If you want to make a quick burst of cash to pay some bills, I show you how. If you want to setup a business that provides you with a monthly income with very little work on your part, I show you how. Here's How I got started... For over 2 years I've tried several different ways to make money on the internet. Up until now, I have mainly concentrated on selling info products and also promoting related affiliate products. Let me tell you, It has been really hard work. I was only just keeping my head above water, what with advertising costs, hosting fees, a costly subscription to a well known 'Guru membership site', and other stuff that just kept adding up. (Sound familiar?) But only a few months ago, (4 to be exact!), I was listening to an interview of a well known internet marketer, who claimed that it was not difficult to make a small amount of money every single day,

if you applied a few techniques and followed a tried and tested system. This was not your regular 'how to make millions' sales pitch. It was an honest, nuts and bolts approach to making around \$30 to \$60 a day, spending 15 minutes a day to maintain. At the time I was barely making \$30 a day with my info products and affiliate sales. So I thought, if I could add another income stream, pulling in another \$30 a day, then it would really help me out. So I decided to give it a go and went to work applying everything that he said would make me \$30 to \$60 a day. It took me just one weekend to set up, and I was up and running within 4 days! In fact I remember it like it was yesterday. I was so excited about the thought of making a massive \$30 a day! Two days after 'my launch', I made my first sale, and true enough I made a sale nearly every day thereafter. It took me just one month to consistently make at least \$50 a day. I took the system and turned it into a step-by-step guide to make it easier for me to follow. But I also found a way to leverage even more money from the system and now earn over \$5000 a month.. I will explain all about that hidden gem to you in the report! Make no bones about it, I'm never going to be a millionaire, but at the rate I'm going, I'm going to have a dam good lifestyle. And that's far more than I could have dreamed for, just a few months ago. Fifty dollars a day isn't something that most internet marketers shout about, right? We'll, you won't make much more than \$50 a day, (initially), but that amount allows you to stop worrying about all those direct debits and subscriptions you have coming out month after month. And it gives you some breathing space to start building an internet business of your own. Trust me, I've been there! I know what's like to worry about whether you should subscribe to a monthly membership site or internet program for \$29 per month. The truth is, earning \$50 a day, can be easily achieved if you're prepared to put in some work and follow a proven system! I will show you exactly how to do it, step-by-step in easy to understand language. If you can understand English, you can make money with my system! The system I've developed is called... 'Zero To Fifty in 30 Days!'
