If you can copy information from a sales letter and paste that information into a template then you stand to make substantial auto-pilot cash with the tool you are about to find out about. The product is called Follow-Up Email Creator Pro. Here's How It Works... Step 1. You read the questions and fill in the blanks with your answers. In some cases all you are doing is copying and pasting from your product's sales letter. Step 2. You push the Create button. Step 3. You view your newly created 21 follow up sales messages. Step 4. You copy and paste your follow up sales messages to Notepad and make any adjustments. You could add additional language or just keep the messages the way they are. Step 5. You load the messages into your autoresponder system. The total time to create 21 follow up email sales messages is between 15-30 minutes depending on how fast you can answer the questions. Imagine how long it would take if you were to manually write all 21 follow up emails by hand. Now here's some more stuff you could do with Follow-Up Email Creator Pro... 1. You could mix in articles in between your follow up series. 2. You could add value to ANY PLR product in a day or so by simply creating a series of follow up sales messages centered around the PLR product. 3. You could create follow up emails for Clickbank products and generate back-end sales with your autoresponder. 4. You could create follow up emails for resale rights products....And on and on.
