"In Just Minutes From Now You Can Experience the Raw Power That is Locked Inside Profit Negotiator and Use it To Immediately Start Maximizing Conversions, Capturing More Leads and Generating Bigger Profits for Your Business!" Profit Negotiator Plug n Play Setup - Profit Negotiator is so easy to use that a grade school student could do it. You truly can plug this system in in just a few minutes! Auto Pilot Operation - Once you set the software up, you don't have to do anything else, ever. It runs on complete autopilot! Streamlined Coding - The coding in Profit Negotiator is rock solid. You can bet that this software will take all the traffic you can throw at it without ever fouling up once! Time Tested - Based on proven psychological triggers this system isn't one of those "fad" marketing gimmicks that is going to stop working in a few months. Profit Negotiator is an incredible tool that grabs people that were leaving your site and sucks them back in as a paying customer. No, this isn't some kind of popup or crazy sound that scares and irritates your customer. Profit Negotiator is a software that you install on your webpage which changes nothing on your main sales letter. However, when someone clicks away from your page, the page automatically shows the customer a special offer "on your page" that offers them a discount to get them to buy now, or you can also offer them something free to get them to enter their email address to you can sell them in the future. You now can show a full page offer, not just what you can fit on one of those lame DHTML popups, but an actual full page. This page however does not "Pop Up" -- those can be blocked, it is actually a hidden part of your main sales page that magically appears when someone attempts to exit your page without ordering! This grabs a whole segment of customers that never buy at full price and wait for a special promotion by offering them that special promotion right away! This increases conversion like mad and pads up your customer email list as well as your bank account in the way of increased profits! Don't You Deserve More Profits And Higher Conversions On The Existing Traffic To Your Website? Profit Negotiator is an extremely easy system to use. If you can copy and paste and open your page in an HTML editor you have the skills needed to use this powerful system. Tags: plr,
