..New Sophistically Coded eBay Niche Website Allows You To Brand And Cloak With Your Affiliate Links Within Minutes, And Ready For Uploading! Perfect for.. * Affiliate Marketer's * Webmasters * And Opportunists! From The Desk Of Timm Miller Internet Marketer Dear Friend, Wouldnt it be nice if you could have your very own website proven and successful website created for you? Wouldnt it be nice if all the grunt work was done, such as a web template, writing exciting content, ensuring all the links are in check, and just making the site feel right for the visitor? Wouldnt it be nice if you could actually be rewarded for your hard work when you promote your site? If the idea of having the work already done for you and editing 1 file to rebrand an entire site with your affiliate links within minutes appeals to you then you may want to read the rest of this page.. Why Have An eBay Affiliate Site? Just so you know, I am not a believer in get-rich-quick schemes, especially after seeing so many of my friends try and fail. What I do believe in is working smart for my money and more importantly, my effort. If theres a quicker and more efficient way of doing things Ill do it rather than slaving away with the old method. One thing that Ive learned when it comes to affiliate marketing online is to always have some form of buffer or pre-sell page before you send a visitor (which youve worked hard to get) off to a merchant site. That way you can at least grab their name and email before never making contact with them again. So why have an affiliate site? Or more specifically, why have an article-based website dedicated to a specific subject? Well there are a few reasons for this.. * More pages indexed in the search engine results page. With a single page and single offer you have very little exposure on the web. With an article site your net is cast wider and the search engines will index several pages of your site rather than just the one. * Catering for the right kind of people! When you have a site dedicated to a specific niche, or a niche within a niche, you drill down on what people are already searching for and are aware of. These people know what they want and

have a good idea of what information they're looking for. Hence it's easier to make a sale. * You're drilling down on a specific niche! This opens up opportunities to provide products and recommendations on very specific products highly relevant to the content that's on your website. No need to guess what the visitor wants or what they will buy. Chances are, if they're already on your website, they're a hot buyer! * Ability to get traffic from many sources! Because you're drilling down on specific niches with many pages just waiting to be indexed by the search engines you have the opportunity to target keywords and key-phrases, which inevitably can send a horde of buying traffic to your website! * Perfect for pre-selling! Because you're already in front of the buyer, you just need to direct them to the right product to make the commission! * Higher Google quality score! If you've ever done PPC before you know that AdWords is getting tougher to crack especially with their quality scoring system. Because you're advertising a page full of content relevant to your PPC campaign you'll be instantly rewarded with a higher quality score which can result in lower cost-per-clicks, higher positioning in the ad section and more profit margins for you! With those reasons alone it makes sense to have an article based website focused around a specific niche and keyword targeted. This gives you a chance to get in front of the right traffic, (the ones who have their credit cards in their hand and some sort of investment in mind), and gently persuade them into the right direction which of course is your recommendation via your affiliate link. So with that in mind allow me to introduce to you an all-in-one ready-made solution.. Introducing.. The Push-Button Solution! *

Professionally Designed Site! - These days, with so many people jumping on the 'online business' bandwagon it's becoming harder to grab your customer's attention. We've taken special care to make sure that your website makes visitors 'stick' and read what's on your site. * Automatically Updated Date Script! - The date script gives the sense that your site is updated on a daily basis. This encourages your visitors to come back to your site to finish reading through your articles! * Packed With Quality Informative Niche-Specific Articles! - With so much spam and e-junk around the net it makes a refreshing change for your visitor to see something of quality! We've packed over 30 quality articles into your site to make sure you make a presence and provide REAL information that people are looking for! * Can Build Your Own Niche List! - The first menu above the articles is 'Join Our Newsletter'. You simply need to copy and paste your sign-up code in the signup.html page, upload and have your web-capture form instantly showing. It doesn't matter if you're using Aweber, GetResponse, ProSender, ConstantContact or any other service.. it will work either way. * SEO Optimized! - Your site includes all the important SEO elements that help

rank it high in the SERPs (search engine results page) to ensure all your pages get indexed and generate the traffic you're wanting! Each tag, tag, is unique to each page and every article is keyword-rich to ensure the search engines see your website! * Based On A Template System! - Because everything is based on a template system, the layout and formatting of each page is exact and precise to keep the search engines happy! * Promotes High-Converting Products! - Your promotional graphics are displayed on every page on your site for maximum exposure! We've placed eye-catching graphics to the right and footer of each article so your reader will definitely want to check it out! What Makes This Site So Special?.. Its not a question of what makes it so special but a question of what makes it worth my time and when will I start seeing a return on my investment? Truth is ANYONE can create and outsource a site like this, however it will eat up many precious hours in your day and many precious days in your week, and put a fairly big dent in your pocket if you hired a graphic designer and professional copy-writer to come up with the content and optimize it for the search engines! But your time is too precious to go through all the technical details. You're a marketer and you want to get straight down to business so you can start promoting your website and recommendations and build your niche list because that IS where the REAL money is. Ive spent my fair share of ups and downs. Its now time for you to experience the ups and only the ups! Now you're going to take my knowledge and work and apply it with this carefully created turn-key solution! Because you will only have to edit 1 file with your details, rebranding the entire site can be done in literally seconds allowing you to upload and promote! Ill go over this in more detail in a bit..

Explain The Payment System To Me!.. Okay, youll be monetizing this site through 2 offers. One of which is eBay Auction Riches, an advance training site aimed at the novice and more experienced eBay. Prominently placed on the right side of every page of your site in a 120x600 pixel animated banner, youll be ensuring maximum click-through rates. This product currently sells at a modest \$27 and youll earn 50 commission straight into your ClickBank account. The other offer is Auctions 4 Newbies which is an affordably priced \$7 video training site aimed at the absolute beginner and those who just need that extra guidance with eBay. Placed at the footer of every article, youll be exposing your affiliate link at every opportunity! The affiliate program allows you to literally replace the Buy Now button with your PayPal email address which means any sales go directly into your PayPal account. No waiting, no messing around. This is perfect for fast emergency cash! Please Copy & Paste the URL below to the illustrate & how this works.. 4-your-mind.com/ebay_profit_pack/index with mrr.html Both of these offers have low

refund rates and offer exception value for the asking price which is why I've had so much success promoting them myself! You may be asking, why not add and promote more products to the mix? The reason being that this has an adverse effect on sales because your visitors won't know which one to invest in and in most cases end up leaving the site altogether! This site has been optimized to make good use of any traffic you bring it to, to build your list and send through an offer! How Do I Get Traffic To My Site? Don't think you're going to get a website and have no idea how to promote it! That would completely defy the purpose of having one! Some marketers will have their own method of promoting this product and will not need another video course on traffic generation but if you're completely new to marketing a website or just need a little guidance we'll include Web Traffic Blueprints with this turn-key website. More on this in the bonus section! Coded In PHP For Quick And Painless Setup!.. Copy & Paste the URL in a new window to Have a look at the code.. 4-your-mind.com/ebay_profit_pack/index with mrr.html If you can replace those details which I've highlighted for you then you should get this baby uploaded to your server straight away!
