Dear Friend, How much is your time worth to your business? And how much of it do you spend trying to get fresh, new keyword-dense content on your site every single week? What if you could automate all that? Imagine a tool that would: Go out onto the net or spider your own website Collect valuable, bloggable content Post the first part of every page into a blog entry Include links back to your site Ping the search engines Sound too good to be true? Well, Blog & Ping Automator does just that! Think about it.... Blogging is overtaking e-zines and articles in terms of popularity. People are tired of having information spoon-fed to them, they want to go online and seek out blogs. And if yours is listed high enough in the search engines, people will flock to it. And you dont need me to tell you that a huge increase in site traffic means many extra \$\$\$ in the bank! Simply put, blogging is the hottest new form of content, and pinging is how you let the search engines and the world know youve got fresh new content posted. If you do any sort of Internet marketing you can't possibly do without This incredible new software! SEO Can Take Timeand a Whole Lot of Money It could take you years and can cost you a small fortune to figure out just the right combinations that make some magical combination of SEO keywords work while others fall flat on their face. Ive been there. I went to all the top web gurus and got bids from them on optimizing my website. Sure, one of them said, We can get you at the top of Google. Itll take about six months. Then he e-mailed me an estimate.... \$1,500! And even for all that money, he wouldnt guarantee results! Guess what I told him? Uh-huh, you know Heres my thing: I needed something reasonably priced that would get me up in the stratosphere of search engine results, given that: 1. I dont have time to hassle with SEO, keywords, densities, and shuffling articles around. 2. I dont want to wait 6 months. 3. I wont pay \$1,500. So, in desperation, I called a programmer friend of mine. There had to be a better way. And there was! (And no, I will not divulge his name. Ive got him working on a new project, and hes so good, hed be stolen instantly.) After extensive research, he determined that that blogs are now considered search engine candy. So he developed a tool, Blog & Ping Automator, that goes out and gets the very best contenteither from the internet or from your siteand posts the first portion of each article into a blog entry. Each post contains links back to your site, so when the spiders find the

posts they love so, they also find YOUR SITE! It gets better hes also automated the pinging process to let the search engines know you have new spider food up when a new blog entry is made. The result? Your site gets listed WAY UP HIGH in the search engines without you having to write a word of content! I know youre probably still skeptical and a bit on the conservative side, but think about this if you keep doing the same things over and over again youll only succeed in getting the same results. Thats why I want to let try out Blog & Ping Automator completely and totally risk-free! (Ill tell you about my unique guarantee in a moment.) Which Of These Powerful Secrets Could You Use To Make Money From Your Site?

Constantly-updated blog a proven, effective SEO tool. The search engines get what they want, so your site skyrockets in the rankings. 24/7 Blog updating Easy to use if you can cut and paste, you can use Blog & Ping Automator. Save time get that fresh, new content in your blog within minutes! FAST results how fast? Some people have gotten into Google literally overnight! Huge traffic increases the spiders find you, and you know what happens next. Its all good! Visitors come, they click on the ads, Google AdSense sends you huge checks. Turbocharge your ranking very soon youll notice a distinct boost in rankings, which will boost ad revenue! Okay, So Whats The Cost For This Incredible Resource? To be fair, lets compare apples to apples. Blog & Ping Automator could easily sell for \$800. In fact if you asked a top programmer, like my friends, to produce an automated blog and ping tool for you, youd be charged in the neighborhood of \$2,000 to \$3,000, not including his expenses. So at bare bones minimum youre getting \$2,000 of the very best SEO tools at your disposal. But Im not going to charge you anywhere near that amount or even my minimum project price. In fact, your total investment for Blog & Ping Automator is only \$67! So whats the catch? Why am I practically giving this resource away? Well, its really quite simple. Im a marketing guy at heart, and I know that the best way, the absolute best way, to sell anything is by word of mouth. You gotta get a buzz going. So Im selling Blog & Ping Automator an \$2000 value for \$67 for a limited time only! Once the cats out of the bag and everyones talking about it, Ill raise the price and start making a profit. When will the price go up? It could go up at anytime, so if you want to get in on this incredible bargain, you need to ACT NOW! And get some sleep tonight, because tomorrow youre going to get busy, really busy! Is that fair or what? That means you can try out Blog & Ping Automator at my risk, while you see if it works for you or not. And if it doesnt produce, I honestly want you to ask for your money back because I dont want dissatisfied customers. There is absolutely no risk, whatsoever on your part. The burden to deliver is entirely on me. If you dont see an immediate increase in site traffic and ad

revenue, then I'm the loser, not you. Look at it this way -- \$67 is really a painless drop in the bucket compared to the money you're going to waste on ineffective SEO keyword density this and that this year. That's why You Really Can't Afford Not To Invest In Blog & Ping Automator! It's easy to get started right away. Please Note: Blog and Ping Automator is a Script that must be installed on your own Website. If you are not familiar with this process please think before ordering. No support can be provided. Blog & Ping Automator is a .php script- that means you will need a hosting UNIX based account to install it on for it to work properly!
