"Are you sick & tired of figuring out on how to be an expert in HTML?" "Here's How You Can Learn HTML Quickly & Easily With These Step-By-Step Video Tutorials" "In Just A Few Hours or Days Following My Step-By-Step Online Video Tutorials, I'm Confident You Will Be Able To Understand & Work With HTML Much Better" Dear friend, Lets face it: Learning HTML is essential if you have a website! Quite simply HTML is a must for anyone who plans to create or maintain their own website. It is also worth understanding for a wide range of applications beyond that as well. HTML is a great skill to have whether you need to learn how to create web page structure, colors, graphics, links, or embed images or videos. I remember the days when I first started out with web design and creation .I was excited to begin setting up my site and creating a real impact online ---- I was certain that I'd have all the things I need in place in no time at all ---- That is until I faced HTML! I felt like I was facing a mountainous challenge to learn how to use this unknown language. HTML had me at a complete loss! I couldn't even imagine where to start. After making an effort to implement a few basics I had some luck, but overall I was stumped! I tried to source instructions to master this 'foreign language' . Great idea until I saw that the whole thing was total web design jargon. The exercise was a waste of time and left me no more enlightened on how to use HTML. What I wanted, just like you need now, was a straightforward and systematic explanation, or even better, a visual tutorial. I needed to be shown step-by-step exactly how I could progress through the process of creating a HTML site. Finally, following weeks of seeking a solution, I found the perfect answer. I had found a way to go from a total HTML beginner to an expert with HTML in a matter of hours-----Now I'd like to show you how you can do the same! These video tutorials are an excellent tool whether youre new to HTML or an experienced web user looking to expand your knowledge base. Once you uncover these essentials of HTML the creation of a vast range of professional, high quality web sites becomes second nature - allowing you to establish your online presence with speed and ease. Learning to master the techniques of HTML is possible with these totally unique video tutorials: * Discover how to generate an attractive background for your website through a tutorial dedicated to this subject * Easily manage the HTML code necessary to organize your website content into a well structured and

aesthetically pleasing format * Jazz up your website text by learning HTML shortcuts that will increase the speed and consistency of your text formatting process * Learn how specialized Cascading Style Sheets (CSS) will allow you to make on-site changes to efficiently design your website * Use graphics to the best advantage to entice readers and improve the overall appearance of your site All this and so much more will be covered in the HTML video tutorials! If this sounds perfect for your learning needs, then.. "HTML Simplified For Beginners" This video coaching series come in the form of 12 videos that you view on your computer.
