This product is ideal for anyone who wants to develop their own ecommerce storefront without breaking the bank. This is a fully functional complete shopping cart solution designed to save the do it yourself online store manager 100's of hours of time. Our Story: Frustrated by our inability to find an inexpensive and suitable shopping cart to list our industrial products, we decided to construct our own solution. It seemed that there was nothing available for the nuts and bolts, fasteners, gears, tools and industrial components sellers of this world. Using the osCommerce open source software as a platform, we have added all of the features needed universally by all online stores. Most importantly, an easy to use WYSIWYG editor for product listings, search engine friendly URLs, style classes for all store areas and intuitive, uncluttered site navigation. This is a complete online store installation utilizing PHP and MySQL. Simply replace the header image with your own. Store colors and accenting images are easily changed in the stylesheet to be unique to your business. To see a demo, copy and paste the following URL:
