

Cd Dvd Automator With Rights

[DOWNLOAD HERE](#)

"Now You Can Burn, Print (in full color), Package and Deliver your CD's and DVD's 100 Hands-Off and Automatically ... so you can focus on sales and marketing!" CD+DVDAutomator makes sales for you so you never have to print, package or ship CD's or DVD's yourself ever again. All of a sudden, delivering CD's and DVD's (even sets!) can become as easy as selling a downloadable product! CD + DVD Automator is a PHP script that makes it easy to sell and deliver your CD's and DVD's 100 HANDS-OFF! Using CD + DVD Automator you can sell your content, scripts, software, videos and more through PayPal then have them burned, printed and delivered to your customers automatically by Kunaki.com's fulfillment service! You never have to burn CD's or DVD's, print the CD /DVD jackets and inserts, label, package or drag your packages to the Postal Office ever again! This flexible script allows you to sell and deliver your CD and DVD as easily as selling an ebook or digital product using Kunaki.com's XML service. CD + DVD Automator is the break through software created specifically for marketers that sell information, music or digital products that works hand-in-hand with Kunaki to... Allow you to get paid the second each and every order is generated for your CDs and DVDs.. No more waiting weeks or even a month or two to get paid. Now you get paid instantly into your Paypal account. Make MORE sales... When you're getting paid immediately, you now have the option to pay your affiliates IMMEDIATELY, instead of in a month or two. Imagine how much more inspired your affiliates will be to make your sales if you're paying them the same week or even the same day! This alone can make your sales go THROUGH THE ROOF! Enjoy more flexibility... CD + DVD Automator creates your sales page(s) for you, displaying the image(s) of your product(s) in a shopping cart. This means YOU control your sales pages, not Kunaki. So you can change prices in the blink of an eye. Want to run a sale today? You Can! Want to create a special order page with special terms just for your JV Partner? You can! Want to use scarcity to sell by creating a limited offer for the first 50 buyers? You can! Want to raise the price every day (or even every hour) to encourage people to act fast? You can! Build your mailing list of BUYERS, possibly doubling your income... Information is power, or rather, the USE of information is power. You'll capture the name and address of every one of your buyers. Use this golden list to mail out special offers and promotions. Internet marketers have

reported that combining snail mail with their online marketing efforts can DOUBLE your sales. And it makes sense. Emails are deleted with the click of a button. Letters are real mail, regarded more highly, and more likely to be read and acted upon. Fill orders FAST... CD + DVD Automator will automatically and immediately send each customer's order information directly to Kunaki for fulfillment. No need to collect orders and hand submit them. CD + DVD Automator sends Kunaki the customer's order, address and requested method of shipping the moment the order is placed. You don't need to lift a finger. And your customer receives their order sooner, while they're still excited and eager to have it. Reduce mundane customer service emails... CD + DVD Automator creates an Order ID Number for tracking. This tracking number is then automatically and immediately sent to your customer. Again, you never lift a finger. And the customer feels secure in knowing their order is on the way. And since they can track their own order, customers won't need to contact you asking where their package is, resulting in fewer customer service emails. This frees you up to do important things (like golf?) Make you look good... The moment Kunaki receives your customer's order, they begin the process of creating your full-color, glossy, fully assembled, cellophane-wrapped, retail-ready product(s). These are then drop-shipped to your customer(s), according to their order and preferred method of shipment. Did we mention that you get paid IMMEDIATELY? :-) No more waiting a month or two to get paid. You get paid IMMEDIATELY on each and every order you and your affiliates generate. As you can see, CD + DVD Automator allows you to completely automate the way you sell and ship your CDs and DVDs! Now you can sell your tangible info products as easily and quickly as you can sell ebooks and software, while adding additional income streams and boosting your bottom line and your credibility. The script will automatically do several things at once: 1. It will create a page that displays the images of your CD/DVD product(s) directly from your Kunaki account - built-in stand-alone shopping cart that automatically calculates price, International shipping options and total included! 2. It will collect your buyers shipping information! 3. It will take their payment via PayPal (no PayPal account required) and immediately credit your PayPal account! 4. It will submit their shipping information and product(s) ordered to Kunaki for fulfillment! 5. It will create an OrderID # for your buyer and send them an email containing their order information as a receipt and for tracking! 6. It will send you an email with the buyers name, shipping address and Order ID #! 7. It will submit the order to Kunaki via it's XML service to burn, print and ship your order to your buyer - automatically!! Still standing in line at the post office? Hey! This is 2007! You have better things to do!

This script allows you to completely automate the way you sell and ship your CD's and DVD's! Other features: * The script is written in PHP easy to set and use- a video (in *.WMV format) on how to setup the script is included! * One installation of this script can sell multiple products at once - so you can sell CD or DVD sets* or single copies... (*sets can be mutiple CD's or DVD's or a combination of CD's and DVD's- very flexible!) You get the script (of course!) but you also get a video showing you how to setup the script AND how to sell CD/DVD sets from a single page and installation! Frequently Asked Questions: "How is this different than the XML service Kunaki already offers to publishers?" This is exactly why this script was created - to communicate directly with Kunaki's XML service. The coding is complex to even the best coders so we created the script to make it easy for you to sell your CD's and DVD's automatically! "Can't I just order CD's and DVD's from Kunaki in bulk and ship them myself to my customers?" Of course you can, but how much is you time worth? CD + DVD Automator does all the hard work, lifting and post office trudging for you! You can sell your CD's and DVD's completely hands-off and automatically! You also do not have to create PayPal buttons, redirect URL's, Order Tracking ID's or order confirmation emails or webpages - the script does it all for you! "How hard is it to setup the script?" That's the best part! It's very, very easy and we have a video to show you how to setup the script step-by-step. After entering your account info, your PID number for your product(s) from your Kunaki account and then set your prices, just upload the script to your server and you're ready to start taking orders! If you'd like to see how easy it is to setup the script, download our setup video here. "Who is this script for?" It's for anyone who wants to sell their content, scripts, audio, video and more on a CD or DVD or in a set of CD's and DVD's. Internet marketers, authors, developers, speakers, non-profits, direct marketers, independent musicians, and more will instantly see the value of being able to sell their content on physical media, getting paid instantly and never having to go to the post office again! "How Does Kunaki get paid? Does the script pay Kunaki when my customer pays by PayPal?" Check Kunaki's site often to be sure that they have not changed their policy but at the time this was written Kunaki allows all publishers to setup an account for free and you only pay for what you use. Kunaki does not get paid using this script - it only submits the orders via XML to Kunaki for fulfillment. Kunaki will send you an invoice to be paid once a month based on your previous month's usage. If you do not pay your invoice your account will be suspended. "Are upgrades to the script extra or free?" If you purchase the script before our introductory period is over, all future upgrades are free! Order now at 30 OFF during our introduction

period! You can get the script for a short time for just \$97, SALE! Just \$67!: Order If you can't see the graphic above [CLICK HERE TO ORDER](#) Best wishes for your success, PS- What can you sell with Kunaki and CD + DVD Automator? You name it: * ... add higher perceived value to PLR articles, * ... screencapture videos, ebooks, training programs! * ... resale rights products and websites! * ... scripts and software! * ... the possibilities are endless! * ... distribute your original music (great for indie bands)!
