Easily sell digital products with just a PayPal account - PayPal is easy to use, but it doesn't provide a way to hide your ThankYou page or protect your download links. Digital Product Demon makes it easy to do both. It'll hide your Thank You page so that only valid customers can access it and it will expire your download page and encrypt your download URLs so that your links can't be shared or posted on "pirating" forums. Support multiple products in a single ClickBank Account - Digital Product Demon lets you use separate sales, thank you, and download pages for each product you define. That means that you can place multiple products in 1 ClickBank account but still display individually crafted sales pages for each product. Automatically cloak your affiliate links - The benefits of cloaking affiliate links have been discussed frequently on this forum and elsewhere. Digital Product Demon's AFFILIATE mode handles this for you automagically! And much more.....
