Plus much more... All the scripts below with master resell rights for only: \$197 \$24.97 Browse the scripts list below : (very long list if you ask me :-) MULTILEVEL EMAIL AUTORESPONDER REPLICATOR THE ULTIMATE OPT-IN EMAIL PROMOTION CGI Script that allows you to sell or give away autoresponder email addresses that send out unlimited followup emails to subscribers. Subscribers can be manually added or just email the recipient. Secure admin and webmaster area provide detailed statistics and management of mailing lists. Admin may add custom footers and headers to all outgoing email. Remove link function. Setup is a breeze. POWER SAFELIST PRO EASY TO SETUP SAFELIST OPT IN EMAIL SYSTEM WITH AUTOMATIC BILLING CGI Script sets up in seconds and interfaces with any paypal account for easy automated billing. Even charge monthly recurring billing for your subscribers! New users simply click a button to signup! They get a confirmation email with instructions which you can customize. Custom headers and footers. Everything you need to quickly setup a money making safelist service. Works with paypal billing. DOMAIN NAME APPRAISER REAL TIME WHOIS SCANNER FOR EXPIRED NAMES IN SEARCH ENGINES CGI Script scans our DAILY UPDATED EXPIRED DOMAIN DATABASE for domain names with high search engine presence. Scans all the search engines that matter including google, lycos, msn, altavista... Threshold value allows you to cutoff loser domains with less than interesting presence. SEARCH ENGINE KEYWORD HARVESTER SCAN FOR POPULAR SEARCH ENGINE

PHRASES This script allows you to scan for popular search engine words and phrases derived from your search word. Also allows filtering undesirable words (badword list) which can be modified on the fly. Great for generating doorway pages or getting ideas for domain names or buying search engine keywords.

PAYPAL SHOPPING CART SHOPPING CART FOR USE WITH PAY PAL Shopping cart that uses Paypal Pay Pal payment checkout. Takes 5 seconds to setup. All code automatically generated. You don't even have to set permissions. Just upload the files and set 2 paths and you are ready to rip. Design your shopping mall anyway you like by simply inserting the generated itemcode into your website for seamless design integration. My 2 year old can set up this program. Handles shipping charges and everything else you would expect ON HOLD DOMAIN SCANNER CGI SCRIPT FINDS DOMAINS ON HOLD JUST LIKE THE PROS DNSRESEARCH sells lists for hundreds to THOUSANDS of dollars and is making a FORTUNE doing EXACTLY this. It's STUPID. You get a big list of domain names. Sort them out into lists which are about to expire and sell them as "onhold" domain lists. This is the secret to the entire business. DNS RESEARCH TOOL DNS analyzation tool Very useful script for DNS and network analysis.

Also useful for network security. Script can be altered to do a number of really cool DNS functions as well. Easy to use interface for NET:DNS perl module. Gathers complete DNS records and does

comprehensive lookups in batches. HTML ROTATOR Say goodbye to advertising as you know it. This is the new revolution! MYSQL backend database system allows you to rotate HTML. Similar to a banner rotator in concept but allows rotation of complete HTML (including images, javascript, any HTML tags).

HTML can be rotated as an exit system, rotate your start page or you can rotate a frame in a page or just a paragraph or WORD inside any HTML page. It gets better though! This rotator also allows you to categorize your system with unlimited categories of rotations. In other words you can setup a category example such as "marketing" or "webhosting" and only rotate HTML ads appropriate for that target audience. You can sell your ad space however you like (exit pages, frames, whatever) and each client is provided a login to check their stats. If you have a client with multiple ads the convenient interface lets them see all their stats with ONE single user/pass so they dont have to be bothered remembering 500 different passwords - although that is optional too. You can also setup to expire one of two ways.

Accounts can be set to expire by number of impressions (when the account holder exceeds the set number of impressions their ad automatically expires). Accounts can also be set to expire by number of days (flat rate advertising). This offers you a dual marketing approach to selling your valuable banner

space. We use this very same system to sell ads on our site and it works great. System load is virtually undetectable. All stats are in real-time. Admin panel allows you to browse all accounts and their individual statistics, view all ads at once, modify/delete accounts, and even check the overall stats to your server. Single installation can run ads on unlimited sites. and more....
