Instead of spending a fortune on so-called experts or knocking yourself out with the old trial and error method, there is an easier way to learn the authors craft. Now theres good news I wont deny that there are a ton of books out there on writing. Unfortunately the problem with most books on the subject of writing is that they are either filled with plenty of promises and no solid techniques and strategies to back up those promises or they contain only one or two pieces of useful information and not a comprehensive look at everything you need to know to succeed in all areas of writing. The Authors Craft for breaks the mold of all the other writing books and manuals you have heard and read about. It presents solid, proven steps to help you learn how to successfully write! Suppose you could finally become the writer youve always dreamed of? Sounds too good to be true? Its not and I can prove it with The Authors Craft. But, first a word of introduction. My name is _____. A few years ago I found myself in a situation not too different from your own. I have always had an interest in writing. Unfortunately, I couldnt seem to get the hang of it. I didnt understand what I was doing wrong. I had spent a ton of money on writing technique books and even a few private lessons but it didnt seem to make a difference. By the time I was well established in my career, the idea of writing had become a matter of pride. The only problem was that I had no clue where to start. None of the books I had read on writing had been able to solve my problem. Some of them were so mired down in fancy words and technicalities that it was a miracle I ever got past the first chapter! Others might have passed on a helpful hint or two, but did not solve my problems. The process of sorting through various writing books was frustrating and time-consuming. One night I commented to my wife that what I really needed was a comprehensive guide on everything to do with writing Thats when it hit me! If I couldnt find a comprehensive guide on writing, then why not create my own? I was tired of flipping back and forth

through tons of books for the few bits of information that could help me; but I reasoned that if I put all those little tidbits of info together then I might actually be able to begin understanding the secrets of writing. The next morning I furiously began to read through all of the writing books that I had purchased over the past few years and take down the pertinent notes. I didnt stop there either. I swallowed my pride and enlisted the help of a few experts who were accomplished in writing. It took awhile to sort through all of the information I had gathered and compile the notes I received from the experts I consulted, but when I was finished I sat back and was completely stunned. Right here in front of me was the information that I had been seeking all along! From the notes I had taken from several articles on the subject of writing, as well as my own experiments, I had comprised a comprehensive compendium on writing. Introducing ... The Author's Craft! I sat back in stunned amazement! It was all there! Writing Novels Writing Plays The Artist and the Public Then I decided to try an experiment and put all of my hard work to the test. The next morning I got up and walked straight to my computer.. This time I would not fail! Suddenly, I was excited! I absolutely could not believe the difference. Suddenly it was all so clear! I could easily implement proven strategies without having to wade through a mountain of fancy words and difficult to understand terms. What happened next was nothing short of amazing! These strategies not only worked, but the results were completely astonishing. Suddenly I was able to write confidently and exhibit skills that I had not known I possessed. My friends and family were absolutely stunned! I had never seen anything like it! Now, keep in mind that I had tried a lot of other techniques up until this point. You name it, I probably tried it! Thats how desperate I was to learn how to write! As my success with writing grew, I started to feel guilty. I knew there were a lot more people out there who wanted the same solutions I had found. Somehow, it just didnt seem right to keep it to myself. One night as I made some changes to my book, I wondered how many other people might have the same problem? After all, if I couldnt find a decent comprehensive writing manual, what were the chances anyone else could? Given the tremendous success I had encountered using my manual; I was sure that other people could take the same easy to read and understands strategies and achieve success as well. Right now youre probably thinking, Yeah, right. Theres a ton of writing books out there. What makes you and your book so different? I wont deny for a minute that there are some good writing technique books out there-after all Ive read most of them, if not all of them. The difference, however; is that my book blows all the others out of the water because it doesnt just focus on one area of writing. You get everything you need to understand how write well.

Nothing, absolutely nothing, is left out. All the fundamentals are there. Absolutely everything anyone would ever need to learn how to write successfully within this impressive work. Okay, Im sold, but whats this incredible resource going to cost me? When I first began to think about putting my manual on the market, my first thought was to create a seminar where people could actually get the benefits in a hands-on way. I know not everyone loves to read, so that seemed to be a great solution. But, I quickly realized how time consuming that would be for everyone so instead, I decided I wanted as many people as possible to reap the benefits of this wonderful manual.
